IMPERIAL MILLIONS

By JULIAN HAWTHORNE.

favourite you treat me for mercy.

Where is your self respect, my dear

Garcia, will you do nothing?

This is too bad, he exclaimed

Sally. "You ought to be protected

against yourself. You are almost

don't realize what you are about.

I haven't the heart to take advantage

of you. Take my word. Have

me arrested for my crimes; I am sure

to be convicted, and then you are

of me forever. Olympia will be dead,

but what of that? The world will be

at your feet. Your path will be clear.

There will be no limit to your ambition.

Come, my dear, say the word!

Here I am, ready for the worst.

I could not escape you if I

would. Will not the pleasure of witness

my death agony compensate you

for a sentimental pang or two?"

That is enough," interposed Garcia,

glomly. He cannot suffer any more.

Get the papers and let him go.

You have had your amusement.

He spoke with an air of authority

that gave a new aspect to his mys-

terious character. The man seemed

to change his individuality as easily

as an ordinary man changes their clothes.

Well," said Sally with a sigh,

what Solomon said is true. "Though

you have a foot in a mortar, you will

not be fully parted from him!" I

will get the papers, meanwhile do

you tell him the purpose of them."

She left the room, and Garcia turned

the handle of the door at which he

trembling in his chair.

You are to be brought back to the

station in life from which you rose,"

said he. "The deeds which you are

to do, transfer your property to

others. You will execute a paper

stating your true name and confessing

that you are the murderer of Harry

Trent. This will be used against you

in case you should attempt to recover

what you have surrendered. In other

words, your life as well as your fortune

will hereafter be at the disposal

of this woman. Are you content?"

If Olympia is saved I am content,"

answered the other.

She will be conveyed this afternoon

to your house on Long Island," said

Garcia. "You will go there not

earlier than five o'clock. To-morrow

you will be asked to leave the country,

never to return. Your departure will

be satisfactorily accounted for. Such

are the conditions. Do you heartily

understand and unreservedly accept

them?"

The count bent his head. Sally

re-entered the room with the papers.

They were placed before him, a pen

in his hand, and he signed the

signature to each document. Words

were spoken, but he did not comprehend

them. The objects of the material

world seemed to flow and swirl

around him like the phantasmagory

of a dream. He was fully conscious

of nothing until he found himself

standing on the end of a wharf

by the river staring into the stream.

CHAPTER XIX.

DRAWING LOTS.

At half past four o'clock Keppel

Darke was landed on Long Island, and

was with him in the middle of the

summer cottage he had built there. It

was Sunday, and the workmen had left

their work. The house, for that mat-

ter, was all but completed except its

interior furnishings. The watchman

was appointed to keep guard over it,

but during the daytime his duties were

merely nominal. He slept in his quarters

above the stable at the back of the

house, and he did not come out of the

premises was the back of the

house. The events of the inter-

mediate period were to him like a

dream. He had just been subjected to

which seemed true while he was reading

it, but which he now recognized as a

phantasmagory. This experience, and

that other one were alone real. Now, as

he was a helpless and helpless

creature, an outcast from society, with

danger dogging his footsteps. Then,

now, a treasure lay before him, but

the treasure was of precious

stones and jewels; now it was the wa-

ter, he had just been

SNAP SHOTS AT
TIMELY TOPICS.

The so-called wit, which the Ontario inflicted last night upon the unfortunate few who still have occasion to scan its columns, was so excessively amusing (in the opinion of its author) that the whole editorial staff have been in paroxysms of laughter ever since.

Bellevue work and workmen may be good enough to make repairs on Dominion Government vessels, but they do not appear to be able to satisfy the fastidious taste of the owner of the yacht "Carmara," jacking by a recent occurrence. Mr. T. S. Carmara made an arrangement with Jack Roblin, the well known shipwright, to haul out the steam yacht Carmara on Mr. Roblin's ways at the island, for the sum of \$15, but without informing Roblin, Mr. Carmara sent his yacht to Kingston, where the work will be done by Kingston workmen. There was a Mr. Roblin says, no work required on the yacht that could not have been executed as well in Bellevue. Incidentally it might be mentioned that the Government dredges Queen was hauled out on Mr. Roblin's ways and work to the value of \$800 or more done on her during a few days' work.

Under such regime it is not to be wondered that success comes to the house.

Everything is done by rule and system; all forces are properly marshalled; every movement is duly guarded and controlled.

Under such regime it is not to be wondered that success comes to the house.

Fortunately

The universal prejudice that glasses should not be worn where they can possibly be avoided, is fast giving way to the more sensible and proper view, that if nature is dependent upon a glass which affords relief and removes eye-strain, such means of assistance should not be withheld.
Our expert Optician has given a lot of time and study to the correction of eye defects, and if glasses are required is thoroughly qualified to fit them. Consultation free.

June Weddings.
FOSTER-CARVERLY.
A very smart and fashionable wedding took place at the residence of Mr. Sidney Sharp, 2nd Con. St., on Wednesday last, when Miss Lily Carverly was united in marriage to Mr. Martin Foster of Northport. The groom was supported by Mr. Wilber Sharp and the bridesmaid was Miss Bessie David, sister of the groom. Rev. J. C. Willmott, M.A., performed the ceremony. The bride was in mauve silk with pearl trimmings, veil and orange blossoms, carrying pink roses. The bridesmaid was in Nile green silk with pearl trimmings, carrying pink roses. One hundred guests were present, including friends from Nanapan, Deseronto, Belleville, Toronto, Oswego and Nebrasko. The wedding march was played by Miss Maud Garrison of Nanapan. A splendid repast was served on the lawn, under the direction of Mr. E. F. Dickens, of Belleville. The presents to the bride chain set with sapphire and gold. The happy couple left Thursday morning for a visit to Chicago and other western cities, before taking up their residence in Northport. The Intelligence joins their host of friends in wishing the young couple uninterrupted happiness.

A Divine Inspiration.
A most estimable lady living in Toronto, at 2220 St. Andrew's (Presbyterian) church, in that town, was largely attended. The essence in which the decessor was held was shown by the fact that the surrounding neighborhood was largely represented. The remains were removed to the Spencer Methodist church, where the Rev. M. W. Maclean, of Belleville, conducted the service and preached an impressive sermon from 2d chap. 1st Corinthians. Rev. Mr. McArthur, of Melrose, conducted service at the grave. The bearers were Messrs. John Barnum, Joseph Wilson, Charles Weiss, Allan Mayhew, James Donaldson and John Houston.

S. O. S. Celebration.
Mr. J. J. Macleannan and J. Meares, of Toronto, were in the city yesterday discussing the arrangements for the "Gathering of the Clans" to be held here August 28th. It is in the intention of the local Camp to put on a first-class programme of sports, and to revive the celebration of the days of Chief McKinnon. The Camp are not anxious to make any money this year, but if they receive the patronage they deserve they will make the celebration an annual affair.

A Hamilton man named Mitchell was drowned in the St. Lawrence river near Deseronto. The "Diaphanities" of Chief of Ontario are meeting at Ridgeway.

Albert Monette, 22 years old, was run over by a street car at Ottawa and died from his injuries.

THE ISLAND PARK.

A GREAT IMPROVEMENT TO IT SUGGESTED.

Mr. Corby, M. P., Will Give \$50 Towards It—Who Will Follow His Example?

Mr. Henry Corby, M. P., with the public spirit, liberality and practical sense which have ever distinguished him, called at the INTELLIGENCE office to-day and suggested the building of a cinder path, suitable for a promenade and for bicycle riding, along the outer edge of Victoria Island, towards the construction of which he offered to contribute the sum of \$50, to head a public subscription for that purpose.

Those who have visited the Island must have seen the necessity for a promenade, and a cinder path is just the thing needed, as it can also be made to answer the requirements of the wheel-people for a suitable track, they being given the use of it at certain hours, as in the park at Ottawa.

In order to aid in carrying out this most desirable project, the INTELLIGENCE here-with opens a public subscription list, to which it will receive subscriptions from \$50 upwards and daily acknowledge the same in these columns.

For Cinder Path, Victoria Island.

Concert at the Tabernacle.

An excellent concert was given last evening in the S. S. rooms of the Tabernacle by the Primary Department of the Sunday School. This class, consisting of sixty small boys and girls, have been striving for some time to furnish the class room, and their efforts were fully appreciated by the delighted audience which greeted them. The programme consisted of marches, drills, kindergarten songs and recitations. Particularly we might mention "The Promised Land," "The Good Night," "The Alphabet," and "The Lord's Prayer." Each number showed the most careful preparation and much credit is due Miss Minnie Lloyd, the class teacher, as also Miss Lena Laxer, who so kindly assisted in training the children.

A Week of Meetings.

What promises to be an interesting week of meetings has been arranged for in the Baptist Church, 12th to the 20th of this month. Rev. Elmer Harris, President of the Toronto Bible Training School (interdenominational), will speak in the afternoon on some phase of the more abundant christian life, and each evening will give an address on "The Gospel in the Tabernacle." Mr. Harris is quite a famous expositor of bible truth and these addresses have been most highly commended wherever they have been delivered. Though held in the Baptist Church, these meetings will be entirely un denominational, and the general public is invited to attend them. Christian workers will find them specially helpful.

Mr. Bennett's Funeral.

The funeral of the late John Gibson Bennett, which took place yesterday (June 2nd) from the family residence, 2nd Con. St., to St. Andrew's (Presbyterian) church in that town, was largely attended. The essence in which the decessor was held was shown by the fact that the surrounding neighborhood was largely represented. The remains were removed to the Spencer Methodist church, where the Rev. M. W. Maclean, of Belleville, conducted the service and preached an impressive sermon from 2d chap. 1st Corinthians. Rev. Mr. McArthur, of Melrose, conducted service at the grave. The bearers were Messrs. John Barnum, Joseph Wilson, Charles Weiss, Allan Mayhew, James Donaldson and John Houston.

A WALKING APPETITE.

How the Hungry Proprietor of a Grit Paper is Feeding at the Public Trough.

The proprietor of the Ontario was very hungry during the eighteen years of Conservative rule, and although he has received a good deal since his friends came into office, he is still crying "More! More!"

He wanted his handman appointed to the Government dredge—and he got it.

He wanted the post office clerkship for a relative, although the "inner circle" of the Reform Association had chosen another man—and he got it.

He wanted the Government dredge man to run his steam yacht to Kingston to be repaired by Kingston workmen—and he got it.

He wanted the contract for butcher's meat for the dredge for a friend, although it had been awarded to Jacob Hicks—and he got it.

He wanted the men employed on the dredge, who had engaged board at a hotel, to be removed to his (Victoria) hotel—and he got it.

He wanted license for his two hotels—and he got it.

Well, that ends the list of his wants for the present, but his mouth is still open. Don't Reformers think that the support of the old, effete organ is being purchased too dearly?

What do the public think of it?

At the Traps.
The Forest and Stream Club had a fair turnout, but rather unfavorable conditions for their first trap shooting match of the season yesterday afternoon. The wind was gusty, the light shifting and the traps threw very irregularly. Some of the men shot without practice, and their scores show it. Following are the results:

EASTERN ONTARIO'S CORUNDUM BELT.
Government Anxious to Interest Capital in the Establishment of Industries for Utilizing the Ore.

The Bureau of Mines has just issued a map of the corundum belt in Eastern Ontario, and is sending out a number of circulars, containing in concise form information concerning these deposits. The corundum bearing lands have an aggregate area of about 50,000 acres. The mineral rights over nearly the whole of this tract are held by the Crown, and they have been withdrawn from sale and lease pending a report on the occurrence of the mineral and the methods of treating it, undertaken by the professors of the Kingston School of Mining. This report and a map of the region will be issued shortly. The Government are taking active steps to foster capital in the development and establishment of industries for the treating and utilizing of the corundum ore.

The Jubilee Mission Circle.
The Jubilee Mission Circle held a successful entertainment in the parlors of Bridge St. church last evening. The following excellent programme was provided:

1. Solo, Miss D. Morris; instrumental duet, Misses Lindham and Morris; Mr. F. E. O'Flynn; instrumental solo, Mr. W. A. E. O'Flynn; Mrs. J. G. Dunlop; solo, Misses Mills and Fish; solo, Mr. F. E. O'Flynn.

The address on "Japan" by Mrs. J. G. Dunlop, who, with her husband, Rev. J. G. Dunlop, was engaged for several years in mission work in the "Land of the Rising Sun" was the leading feature of the programme.

She spoke particularly of the condition of her own sex in that land and pointed out the best methods of placing the truth before them. Japanese women on the one hand, gentle, affectionate, and kind, but on the other hand are untruthful and deceitful. The tobacco habit and unchastity are sadly prevalent among them. Japan has a most excellent social system, but its advantages are, to a great extent, denied to women.

The best way to reach them for the purpose of christianizing them is through the mission schools, where the native girls are gradually influenced by the example and instruction of the lady missionaries. Mrs. Dunlop asserted that the time had not come when the christian nations should leave Japan to itself.

At the close of her most interesting address the speaker was given a hearty vote of thanks.

Mr. C. P. Holton filled the position of Chairman very acceptably.

Fortunately

The universal prejudice that glasses should not be worn where they can possibly be avoided, is a great pity, for it is to the more sensible and proper view, that it is nature's dependent upon a glass which affords relief and restores eye-strain, such means of assistance should not be withheld.
Our expert Optician has given a lot of time and study to the correction of eye defects, and if glasses are required is thoroughly qualified to fit them. Consultation free.

THE ISLAND PARK.

A Grand Opportunity for Bicycle Riders.

The generous offer of Mr. Henry Corby, M.P., of \$50 towards the construction of a cinder path on Victoria Island has not, so far, been seconded by any one.
If the wheel people, who have been longing for a cinder path, take the matter in hand it can be made a success.
The City ought to supplement Mr. Corby's liberal contribution with at least a like sum.

Brigade Camp News.

The camp equipment will arrive to-night.
The messman of the 3rd cavalry arrived from Peterborough last night and is building his kitchen to-day.
The following staff officers will arrive Monday night: Lt.-Col. Montisambert, in command; Major Galloway, Brigade Major; Surg.-Gen. Neilson, P. M. O.; Major Bigger, Quartermaster; Capt. Horne, Muckery Instructor; Col. McPherson, Supply Officer.
Mr. Richard Graetrix and Wallace & Co. have secured the contract for supplying bread for the use of the camp.

Bring the Boys In.

In taking advantage of the boys' suits we are offering of our largest tables, the Oak Hall advise parents to bring in the boys. In no case have we all sizes in any of these suits. We have been piling out a lot of these suits, but we have plenty left, and hope to see you in to-night.

Two Church Socials.

A most enjoyable social was held on the beautiful lawn of Mr. Geo. Denmark, Bridge st., yesterday afternoon. A large number were present and they thoroughly appreciated the hospitality of the charming hostess. The proceeds were in aid of the building fund of John st. church.
The Epworth League of the Holy Trinity Church gave a birthday social on the lawn of Mr. W. J. Magrath, Hillside st., last night. A very large number were present and they spent a most enjoyable evening. The lawn was very prettily decorated with Chinese lanterns. The tubercle orchestra furnished excellent music. The proceeds were for the Forward Missionary Movement.

Higher Than Gilderoy's Kite.

This kite went pretty high, but not near as high as we knocked a case of Ekzema of over 5 years standing, and which had come back but the Ekzema disappeared forever. Ryckman's Kootenay Cure did this, and Mrs. Sarah Boudreau, 440 Park Ave., London, writes: "I was afflicted with the disease all over her body and was in constant pain and irritation, but that 8 bottles of 'Kootenay' cured her body and her physician failed. She has no eruption on her body now, and like many others, recommends the medicine that cured her."
Price \$1.00 per bottle, or 6 bottles for \$5.00, from your druggist or direct from THE S. S. RYCKMAN MEDICINE CO., LIMITED, HAMILTON, ONT.

Battalion Notes.

The 15th Battalion held their weekly march-out last night. The attendance was good and the men went through the drill very creditably. After the drill on the hospital lot the Battalion, headed by the two bands, marched to the drill hall by way of Victoria ave., Front, Bridge and Church sts.
About forty recruits were enrolled this week, and the excursion to Niagara on July 1st is an assured fact. However there is still plenty of room for athletic young men of good character in the ranks.
Mr. A. W. Hepburn, of Picton, is in the city discussing arrangements for taking the Battalion to Niagara on the str. Empress of India. If this proposition is successful, civilians will be given the advantage of the cheap rates and will be able to make a most enjoyable trip for the sum of \$2 or less.

40th Hastings Battalion—Major and Brevet Lieut.-Col. Philip H. Hamby is permitted to resign his commission and to retain the rank of Lieutenant-Colonel on retirement.
[Lieut.-Col. Hamby retires after forty years of service with a highly honorable record and with the respect and admiration of all his comrades-in-arms. He entered the Belleville Rifle Company on its formation under the late Major Levesque, in 1858, and rose from private to Commanding Officer.—E. T.]

The Rolling Mills.

To the Editor of the Intelligence.
Sir,—The Mayor, in his last communication to the press, expresses the opinion that it was highly improper to discuss the Rolling Mills project before the full details were given to the public. When, in some name of goodness, are those details to be considered? Mr. Mitchell came here some time ago, when the matter was gone into; then our Council met, at considerable expense to the City, a deputation to make terms with the Mitchell, and put what they were willing to agree to in writing. This was, I understand, done and the deputation made their report to the Council, and the Mayor, in the remarks that he made on that occasion, emphatically stated that the Mitchell would not agree to the employment of any certain number of men or the payment of any particular amount of wages per annum. This was, I understand, done and the deputation made their report to the Council, and the Mayor, in the remarks that he made on that occasion, emphatically stated that the Mitchell would not agree to the employment of any certain number of men or the payment of any particular amount of wages per annum. This was, I understand, done and the deputation made their report to the Council, and the Mayor, in the remarks that he made on that occasion, emphatically stated that the Mitchell would not agree to the employment of any certain number of men or the payment of any particular amount of wages per annum.

themselves to such a creditable scheme as the Mayor hints at, if there was a profitable market for the product in Canada. The friend in Montreal who was told by Pillsbury and Company that they had written a letter to some one in Belleville, which contained the material information that he asked for, and he was furnished with a copy of the letter to send to the gentleman here from whom I got the copy of the letter.
As I have stated before, if those people wanting the bonus will do business with us on such plain and ordinary terms as private individuals would do business upon with one another, giving us the same fair concessions as they ask on their own part, and will accept such bonus as their industry is actually worth to us, they won't receive the opposition from the people, that they certainly will get if they don't.
Yours truly,
FRANCIS S. WALLBRIDGE.

Magistrate Flint's Court.

Clem Ellis was accused of stealing fish from Tom Sullivan. The evidence was contradictory and the action was dismissed.
Steve Lynch was up on the same old charge of being a drunken vagrant. Officer Hayes made a plea on behalf of Steve, stating that he had no home and was disowned by his friends and desired to be sent to a nice, quiet, comfortable home, to wit the County Gaol. The Magistrate remanded him until Monday, to give him an opportunity of considering what could be done towards meeting Steve's wishes.
Thos. George, of Melco, accused of stealing from Miles Latta, was sent up for trial.

The Vanmeer family again appeared in court to day. Mrs. J. Vanmeer charged George Vanmeer and Moses Dimore with taking two heifers under the threat. The case was not concluded when we went to press. The Crown Attorney for the Crown, W. Carrow for private prosecutor, and W. Farham and W. P. McMahon for defendants.

Several young men were arrested yesterday for bathing in the vicinity of Victoria Park. They were allowed to go with a caution. The by-law forbidding bathing in public places will be strictly enforced.

Arthur Taylor, of the Commercial House, hung up his vest in the barroom yesterday morning. At noon, when he came to examine it, he found his gold-dilled watch had been abstracted from his pocket. Complaint was made to the police, an enquiry was instituted and the watch was found in a second-hand store. It seemed that the watch had been brought there and sold by Henry Revor. The latter is in custody.
Chief Newton has returned from Ormsby, having succeeded in arresting the woman suspected of being implicated in the theft of silverware from the residence of Mr. W. J. Hamilton. So it could be ascertained nothing of an incriminating nature had been found in her possession. The value of the silverware stolen was about \$100.

KIDNEY WAR.

How Insidiously it Wages, but how Quick the Surrender, and how the Flag of Truce is Hurriedly Hoisted when that Great General, South American Kidney Cure, Turns his Guns on the Disease.
This is what James Sullivan, of Chatham, Ont., writes: "For years I was a great sufferer from kidney trouble. I could not be so accurate that I was confined to the house, and was nearly afflicted with insomnia. I was unable to sleep, and using many other remedies without relief to procure a little of South American Kidney Cure. I had relief almost from the first dose. I have persisted in its use, and after using six bottles I am well and strong again. I can work fourteen hours out of twenty-four and feel very little, if any, fatigue. It is the best medicine I have ever used.—Sold by J. S. McKewen."

Court of Revision.

The assessments of Coleman and Murney were considered last night. There were 11 appeals in Coleman Ward and two reductions were made: A. P. Frederick from \$350 to \$300, Jas. McCormick \$50.00 to \$40.00. In Murney Ward there were 14 appeals and the following reductions were made: John Parker Thomas from \$250 to \$200, Peterson Estate from \$250 to \$150. Agricultural Grounds, assessed to Freehold Loan and Savings Co., from \$1000 to \$700.00. Horace Varnum from \$200 to \$100. The name of John Dow, assessed for \$200, was struck out and the name of H. Parker Thomas was inserted for \$150. The assessment of Daniel Foster, Foster Ward, was reduced from \$300 to \$225.

Such Was the Condition of

Miss Rodd, of Brooklyn.

An Editor Relates the Story of Her

Illness and How a Remarkable

Change in Her Condition was

Brought About.

From the Gazette, Whitby, Ont.

For some five years the editor of this journal has made weekly visits to Brooklyn in search of news. One of his earliest recollections of the village was in noting that Miss Levis Rodd was very ill. Miss Rodd was well known, and as week after week rolled round it was natural to ask how she was getting on, and the reply always came that she was no better. Time went on and it became a settled fact that Miss Rodd was a confirmed invalid and that she would continue until a kind Providence took mercy on her by allowing death to end her sufferings. None of the villagers anticipated any other ending. Our attention was called to her case by a letter, described, therefore, when Mrs. Bell Wells mailed us one morning with "Well, editor, we have a new case to-day."

"What is it?" "Why, Miss Rodd has gone on a visit to Columbus today."

"Why, I thought she was a confirmed invalid?" "So she was, but she has been improving so much lately that she is now able to help herself a good deal, and it was thought a change of scene would do her good."

"That is certainly good news," replied the quill-pusher, "and good news too, but what cured her?"

"Dr. Williams' Pink Pills," replied Mrs. Wells. We then decided to ask Miss Rodd upon her return for an interview, but it was some time before it took place, owing to the limit of time at our disposal between trains, and partly owing to a desire to wait and see if the improvement was likely to prove permanent. However, after many "u-ohs," we finally called at the home of Mrs. Doolittle, a sister of Miss Rodd's, who had carefully looked after her during the long illness. At the request of the editor Miss Rodd made the following statement:—

"I am fifty years of age, and have lived in Brooklyn ten years. Five years ago I was taken ill with acute rheumatism, and have not since been able to do my usual work."

HOPELESS INVALID.

Such Was the Condition of

Miss Rodd, of Brooklyn.

An Editor Relates the Story of Her

Illness and How a Remarkable

Change in Her Condition was

Brought About.

From the Gazette, Whitby, Ont.

For some five years the editor of this journal has made weekly visits to Brooklyn in search of news. One of his earliest recollections of the village was in noting that Miss Levis Rodd was very ill. Miss Rodd was well known, and as week after week rolled round it was natural to ask how she was getting on, and the reply always came that she was no better. Time went on and it became a settled fact that Miss Rodd was a confirmed invalid and that she would continue until a kind Providence took mercy on her by allowing death to end her sufferings. None of the villagers anticipated any other ending. Our attention was called to her case by a letter, described, therefore, when Mrs. Bell Wells mailed us one morning with "Well, editor, we have a new case to-day."

"What is it?" "Why, Miss Rodd has gone on a visit to Columbus today."

LIEUT. HOBSON'S HEROIC DEED

Complete Story of the Sinking of the *Merrimac* at Santiago

Scheme Was Deliberately Planned

Admiral Sampson and All on Board His Ship Were Fully Advised of the Daring Project—It Was a Risky Adventure, But Worth the Effort—The Following is a Detailed Story of the Brave Act of Lieut. Richmond P. Hobson and his seven companions in sinking the *Merrimac* across the channel leading into the harbor of Santiago de Cuba.

The result was accomplished through the heroism of Lieut. Richmond P. Hobson, assisted by a band of volunteers, Daniel Montague, George Charlton, J. C. Murphy, Oscar Deigman, John P. Phillips, John Kelly and H. Claiborne. The latter, a coxswain of the New York, took part in the expedition against orders. They were all captured by the Spaniards, but the Spanish Admiral, in recognition of their bravery, sent word to the American Admiral, under a flag of truce, that he was willing to exchange the prisoners, and assuring the American commander that they would be treated with the greatest kindness. Money and provisions have been sent to them, and the necessary steps are being taken to bring about their exchange. The *Merrimac* had on board ten tons of coal when she was sent off across the channel.

The Perilous Trip Started.

Lieut. Hobson started on his daring errand at 10 o'clock this morning. The *Merrimac* was lying to the westward. Under cover of the clouds over the moon she was towed to the east and made her way to the eastward, followed by a steam launch from the New York, with the following crew on board: Naval Cadets J. W. Powell, D. K. Peterson, H. Handford, J. Mulling and G. L. Russell. In the launch were bandages and appliances for the wounded.

From the crowded decks of the New York nothing could be seen of the *Merrimac* after she had got under the shadow of the hills. For half an hour officers and men strained their eyes peering into the gloom, when, suddenly, the flash of a gun streamed out from Morro Castle, and then all on board the New York knew the *Merrimac* was nearing the end. The guns from the Spanish battery opposite Morro Castle answered quickly with more flashes, and for about 20 minutes flashes of fire seemed to leap across the harbor entrance. The flagship was so far away to hear the reports, and when the firing ceased it was judged that Hobson had blown up the *Merrimac*.

At 6:15 a.m. the launch came alongside the flagship, but she did not have on board any of the crew of the *Merrimac*. Cadet Powell reported that he had been unable to see any sign of the *Merrimac*'s crew. It developed that, with great bravery, the cadet had gone right under the batteries and only returned when all hope of taking on board the crew of the *Merrimac* had to be abandoned.

Cadet Powell also reported that he had seen the *Merrimac*'s masts, sticking up just where Hobson hoped to sink her, north of the Estrella battery, and well past the guns of Morro Castle. But, of the heroes who had perished, the Spaniards, there was not a sound or a sign.

What Sampson Said.

Rear-Admiral Sampson said: "I am pretty sure the attempt was quite successful. I hope all those brave fellows are not captured."

Cadet Powell believes the torpedoes previously fixed about the *Merrimac* were exploded as planned, as Lieut. Hobson was well up the harbor before the Spaniards opened fire on the *Merrimac*.

What actually happened on board the *Merrimac* can be best judged from what Lieut. Hobson said just before leaving the flagship. Sitting in his cabin, his face beaming with the sun and his eyes shining with excitement, he remarked: "I shall go right into the harbor until about 400 yards past the Estrella battery, which is behind Morro Castle. I do not think they can sink me before I reach somewhere near that point. The *Merrimac* has 7,000 tons of buoyancy, and I shall keep her full speed ahead. She can make about ten knots. When the narrowest part of the channel is reached I shall put her helm hard astarboard, stop the engines, drop the anchors, open the sea connections, and then the torpedoes will leave the *Merrimac* a wreck, lying athwart the channel, which is not as broad as the *Merrimac* is long. There are eight fish improvised torpedoes below the waterline on the *Merrimac*'s port side. They are placed on her side against the hull's heads and vital spots, connected with each other by a wire under the ship's keel. Each torpedo contains 32 pounds of gunpowder. Each torpedo is also connected with the bridge and they should do their work in a minute, and it will be quick work even on a minute and a quarter.

Disposal of the Men.

"On deck there will be four men and myself. In the engine room there will be two other men. This is the total crew and all of us will be in our undress, with revolvers and ammunition in waterproof packing strapped around our waists. Forward there will be a man on deck and another at the wheel. The other end of the line being made fast to the bridge, when I shall stand by that man's side will be an anchor. When I stop the engines I shall jerk this cord and he will get the signal to cut the line which will be holding the forward anchor. He will then jump overboard and swim to the four saved dingies, which we shall tow astern. The dingies are full of life buoys and is unbreakable. It is to be held by two ropes, one made fast at her bow and one at her stern. The first man to reach her will haul in the line and pull the dingy out to starboard. The next to leave the ship are the rest of the crew. The quartermaster at the wheel will not leave until after having put it hard astarboard and looked it up, so he will then jump overboard.

The Engines to Be Stopped.

"Down below the mainmast, the reversing gear will stop the engines, scramble up on deck and get over the side as quickly as possible. The man in the engine room will break open the sea connections with a sledge hammer and will pull the line into the water. This fact justifies the sinking of the *Merrimac*, whether the torpedoes work or not.

"By this time, I calculate, the six men will be in the dingies, the *Merrimac* will be a burning wreck, and the rest of the crew will have been paid out from the anchors overboard.

"Then all that is left for me to do is to touch the button. I shall stand on the starboard of the bridge. The explosion will throw the *Merrimac* on her starboard side."

"And do you expect to come out of this alive?" asked a companion of the Lieutenant.

"Ah, that is another thing," said the Lieutenant. He was so interested in the mechanical details of the scheme that he scarcely stopped to think of life and death. Lieut. Hobson might have been lucky in a class of cadets on the theory of a man to a ship, so deliberate was his manner.

A Desperate Struggle.

The preliminary work of this desperate undertaking was a task upon the lives and men. All Wednesday night the crew worked on board the *Merrimac*, which lay to the westward of the New York, on other ships, as they passed the collier, before dawn, cleared her way with the same result as the *Merrimac* met with.

cheered the American sailors' heroism at Santiago.

Wine Cerebra's Admirability.

One can imagine the immense feeling of satisfaction experienced when it became known that Hobson and the crew of the *Merrimac* were safe. Later in the day a boat with a white flag put out from the harbor, and Captain Oviedo, the chief of staff of Admiral Cervera, boarded the New York and informed the admiral that the whole party had been captured and that only two of the heroes were injured. Lieut. Hobson was not hurt. It appears that the Spanish admiral was so struck with the courage of the *Merrimac*'s crew that he decided to inform Admiral Sampson that they had not lost their lives, but were prisoners of war and could be exchanged. The dingy portion of the programme does not appear to have been carried out, which led to the belief that they may have been rescued by a shot for it seems Hobson and his men drifted ashore on an old casamata, which had been along over the *Merrimac*'s side at the last moment, as an extra precaution. They were captured and sent to Santiago under guard, previous to being transferred to Morro Castle, where they are now understood to be confined. Money and provisions were sent to the prisoners through Captain Oviedo, and it is believed Rear-Admiral Sampson is taking the steps necessary to bring about their exchange.

A Combat Reported.

Cape Haytien, Hayti, June 6.—Advices at 7:40 p.m. last night from Mole St. Nicholas say that yesterday (Saturday) some distance off Joan Rabel, a seaport on the northwest coast of Hayti, half way between Port de Paix and Mole St. Nicholas, a combat took place between three Spanish and four American warships. The American ships are said to have withdrawn from the combat.

Weight Yourself before Taking Them.

GAINED 22 POUNDS.

I have more faith in Dr. Ward's Blood and Nerve Pills than anything else I have ever used. Since using them I have recommended them to several of my friends who were troubled as I was, and now they are in splendid health. I had been a sufferer, like a great many other women, who tried everything I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color and my friends were alarmed. I said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others, I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and now I have a constitution that is hard to beat. I have never felt any pain in my head, and I am sure that Dr. Ward's Blood and Nerve Pills will really every woman suffering as I did. Sincerely yours, MARY COLE, Simcoe, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c per box, 5 boxes for \$2.50, at druggists or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Each box of Pills free.

James Fox Drowned.

Berry Sound, Ont., June 6.—The body of James Fox was found Sunday morning, drowned off Berry Sound in 7 feet of water. It is thought he had fallen off the dock in the dark and was unable to swim. The relatives have not been notified, as it is said he had a son a druggist, who lived in Kingston.

John Dolan Killed to Death.

Chatham, June 6.—John Dolan was assisting to harness a horse at the Franklin House livery, and in passing behind the horse the animal kicked him in the abdomen. The injury proved fatal, the unfortunate man dying at an early hour Saturday morning. Deceased was a married man.

THE SLATER SHOE

"Slater Boot Trees."

The wear and shape retention of a shoe may be doubled if, when taken off the foot, it be put on a tree the exact shape of the shoe. The leather thus regains its elasticity and fiber tension and the shoe its form. Valuable to wearers with a tendency to run over heels. A good idea is to have two pairs of shoes literally "tree" and worn. Each pair will thus give double service if allowed a rest-day between wearings. Trees to fit the various shapes of Slater Shoes, at \$1.00 per pair.

BELLEVILLE ONTARIO, TUESDAY, JUNE 7, 1898.

NO. 31

THE REDCOATS ARE HERE.

The Brigade Camp is Now In
Full Swing.

The Citizens Soldiers Welcome to
Belleville—Strength of the Corps
and Their Bands—Other Details of
Interest.

The streets of Belleville this afternoon
present the appearance of those of an Eng-
lish garrison town. From every side our
city is being invaded by swarms of
gallant redcoats, who, in answer to the call
of their Queen, have come to spend twelve
days of hard service under canvas.

The 10th and 16th Battalions and the 3rd
cavalry arrived by rail this afternoon, while
the 16th came in on the str. Marit.

The tents of the brigade officers and also
of the regimental officers, with the excep-
tion of those of the 16th, were all in position
this morning. The men threw up their
own canvas after their arrival this after-
noon.

The following is the strength of the 40th
Battalion, Northumberland Infantry:

Troop C, Peterboro, Capt. Johnson.

Troop D, Wallington, Capt. McClelland.

Total strength, 180.

The list of officers of the 40th East Dur-
ham Infantry could not be obtained. There
are six companies under canvas, from Bow-
manville, Milbrook, Springvale, Bethany,
Port Hope, Wallington, and St. Catharines.

Band of 16 pieces under charge of R. Smith.

NOTES.

Peter I. Evelyn has charge of the camp com-
mission.

The officers' tents are models of elegance
and comfort.

Mr. J. E. S. of Belleville, has charge
of the camp bar-ter-shop.

The Y. M. C. A. are taking an active part
in providing light attire for the men.

Major McCaughy, a retired officer, has
charge of the mess of the 40th.

Some of the visiting officers express great
dislike to the condition of the camp ground.

The troops from Peterborough, Milbrook
and Colborne, together with two companies
of horses, arrived at the market square at
12:30 o'clock.

The brigade officers, a list of whom has
already appeared in the INTELLIGENCER,
arrived last night with the exception of
M. Officer Nelson, who was injured yesterday.

NOTES.

all saluted, amongst these was Sir Vander-
voort's "magical fairy" which no doubt
many of our readers have seen in their ex-
cursions down the bay. The Skylark glided
along like a huge white swan, hardly a
movement being felt as she ploughed
through the water at twelve knots an hour.

It is said to be that no such craft was
ever owned by a Bellevillian before or
sold upon the waters of the Bay of Quinte.

She is not only a credit to Mr. Corby, but a
credit to the city as well. The party who
accompanied Mr. Corby on his trial trip,
were composed of Major Johnson, Ad-
miral, Stirling, Falkner and ex-Ad.

RIOTING NEAR BELFAST.

Orangemen Break up a Nationalist Pro-
cession and Attack the Police With
Stones—Troops Called out.

Belfast, June 6.—During the celebra-
tions of the anniversary of June 6, 1800, when
seven civilians were shot on Shank Hill
road by the constabulary, the Nationalist
procession, while the latter were on their
way to the Shank Hill road, were broken up in a
riot. Several thousand Orangemen in the
Shank Hill road attacked and overpowered
the police and chased them back into the
Brow Square. Several mounted
constables were severely injured and
revolvers before they were able to re-
sue their comrades from the fury of
the mob, which tore the street for
miles. The troops were then called out
but the mob cheered them and sang "Rule
Britannia." At a late hour this evening
there was renewed rioting, and the troops
were compelled to charge the mob, num-
bering several thousand. The rioters stoned
the police and troops, one constable was
killed from his horse, was severely beaten
with stones. When Shank Hill was cleared
the crowd gathered in the side streets.
Altogether this was the worst rioting that
has occurred here since 1866. It was pro-
longed until midnight, and at this hour the
city is still in a dangerous state of ex-
citement. Over fifty policemen have been
injured and twenty-four have been taken to
the hospital with fractured skulls and
severe scalp wounds. Many civilians were
injured in the military charges, some
dangerously. The constable who was
killed on his horse is not expected to
recover. The rioting was the worst that
has occurred here since 1866. The rioters
are now in practical occupation of Shank Hill.

THE C.P.R. IS LOSING.

Mr. John Ross Robertson on the Crow's Nest Outrage.

Contractor Henry had really to accept a Ready-Made Policy of Cruelty and Tyranny—Mr. Tarte brought on the Farming Out of Contract—The Right of the House to Get a Chance at the Plume.

Ottawa, June 8.—Away on into the silent watches of yesterday (Tuesday) morning the House continued its weary Monday night. Mr. Tarte's public works were the subject of scrutiny. The item, "Ottawa Landing dredging \$11,000," gave the Opposition an opportunity to attack the "farming-out" system of the Government. In the course of a rigid cross-examination the Minister defended the practice of letting the dredging contracts to political friends. He confessed to giving them a chance to sub-let them and draw the rake-off, on the ground that it was time the Grits got a turn at these plums.

Mr. Clarke, Toronto, had been told that Mr. Plume was paid 144 cents a yard for dredging Toronto harbor and then sub let the contract to Mr. Coghill. The old Government had paid only 12 cents. Mr. Tarte, after long leading around the bush, was obliged to promise to stop farming out and let the work by tender. He would not deny that Gaultier, the Ottawa Landing contractor, was a relative of his only by marriage.

Another alarm was fought on the ground of the \$400 item for repairs to the little summer house on Parliament Hill. A number of Opposition members offered to put up a new and equally good building for \$500, or to get a contractor to do the repairs for \$100. Mr. Tarte would not accept this. The House adjourned at 2:30 a.m.

At yesterday morning's session the Montreal harbor bill passed its final reading and the House again went into supply.

The free lance Conservatives and one or two independent of the Ministerialists, took advantage of an opportunity afforded by an item of \$2,500 in the supplementary estimates to pay for the Royal Commission, to take the Government and the C.P.R. to task for their part in the Crow's Nest Pass outrages. They finally extorted from the Premier a promise to try to see the ends of justice met.

The C.P.R. Arraigned.

Mr. John Ross Robertson opened by an unstinted arraignment of the C.P.R. In view of the fact he began, that the Government did not appear to be contemplating any immediate action on the C.P.R. to back for their part in the Crow's Nest Pass outrages. They finally extorted from the Premier a promise to try to see the ends of justice met.

given men, who could not stand the work, free transportation back. Mr. Robertson also demanded an investigation, and Sir Wilfrid rose.

Sir Wilfrid's Protest.

The Premier protested that his Government had acted as hastily as possible in appointing the commission. Its personnel had been selected with care, and its report had only been prepared lately, and at the late period in the session that it had been sent to the House to take any action. He engaged, as soon as Parliament adjourned, to see the ends of justice met, to call the first Deputy Minister in reply to Mr. Robertson, and Mr. Oliver, he promised to call the first Deputy Minister of Justice to account for his part in delaying justice.

Deputy Minister of Justice, Mr. Clarke, in the afternoon, in the previous 48 hours, he had not received a communication from the Imperial Government, respecting the deportation of Senor Carranza and Du Bois. Sir Wilfrid declined to let any diplomatic secrets.

Compensation Proposed.

In the afternoon Mr. Robertson introduced the Crow's Nest Pass subject, and urged the Government to grant redress as well as remedies to prevent a recurrence of such outrages.

Mr. Robertson, upon reaching the item, moved the Government to put up a \$40,000 building to gather together and preserve the archives and records of the House and the departments. He recalled the finding on the street of a document last year worth \$500. The Premier could not promise to spend the \$40,000 this year, but suggested a possible amalgamation of the Geological Survey and the archives in one building.

Toronto Publishers' Protest.

The next Government favorite to be scourged by the Opposition were the firm of Hunter, Ross & Co., Toronto, publishers. Don Ross, it will be remembered, secured the rights to sell Mr. Ogilvie's book on the Klondike. Dr. Montague pointed out the wealth of advertising which the volume contained, and urged that the Government should have done the work with its own printing bureau. The Minister of the Interior vouchsafed his severe-al-purpose plan of the exigency of the case.

Mr. Robertson contended that the books cost the publishers only 130 cents each for a 10,000 circulation, leaving them, therefore, a profit of 30c, besides the advertising.

Mr. Clarke, in rebuttal of Mr. Ross's plea of exigency, stated that many days had been wasted in negotiating with the publishers. The Dominion Bureau could have done the work in three or four days. The Minister denied that it could have performed the work so quickly.

Mr. Clarke called the Government's attention to the incalculable value of the advertising that the Government has been putting into the book for the use of immigration agencies abroad.

Mr. Foster closed the debate by sounding a warning note to the Government, that having entirely departed from the principle of tendering, and having thus, in effect, given the political friends, who owned no dredges, a show. The old liberal policy of economy had developed into one of earnest hypocrisy. After thus scathing the Government, the item was allowed to pass.

House rose at 1:30 a.m., having passed the 1897-98 supplementary estimates.

Further supplementary estimates were presented as the House was rising—\$20,000 to defray expenses of the proposed, still high commission between Great Britain and the United States, to settle disputes at Quebec; \$45,000 for increased intercolonial accommodation at Lewis, and \$2,731 for legislation.

THE SENATE.

Recommend the Construction of the Kettle Valley Railway.

Ottawa, June 8.—In the Senate yesterday afternoon Hon. David Mills moved the Senate have two sessions daily until the end of the session. The motion was adopted.

The bill to authorize the Quebec harbor commissioners to borrow money was passed through committee and read a third time.

The Senate went into committee on a bill respecting the transport contract between Her Majesty and the Winnipeg & Great Northern Railway Company. The matter was passed through committee and read a third time.

Senator Boulton gave notice that on the third reading he would move a six months' hold on the bill.

Senator Glenora moved the adoption of the report of the special committee appointed to enquire into and report on the construction of a canal uniting the waters of Lake Huron with those of the St. Lawrence River via the Ottawa River. The report was favorable. Senator Boulton seconded its adoption. Senator Scott supported it and the bill passed.

The Senate then for the time committed on the Plebiscite bill. The bill was passed through committee without amendment and reported for a third reading for Thursday.

London, June 8.—The Board of Trade returns for May show an increase in the imports of 2,150,000 tons, and a decrease in the exports of 21,400,000 tons.

THE KETTLE VALLEY FLOODED.

The Big River on the B.C. Boundary on the Rampage.

Details Slim Because of Interrupted Telegraph Service—Roads and Bridges Washed Away—Mayor Manly's Residence Submerged—Kootenay Lake Rising Several Inches Per Day and Becoming Dangerous.

Vancouver, B.C., June 8.—Kettle River, in the Kootenay country, is on the rampage, flooding roads and destroying bridges and cutting great inconveniences and loss. News comes in very rapidly, owing to there being no telegraph service. The latest advice says the toll bridge at Halls, completed two months ago, has been washed away, blocking freight traffic, though it is expected a ferry will soon be in operation. The condition up the valley is said to be serious. At Greenwood the Boundary Falls and Rook Creek bridge have been washed away. At Grand Forks the larger part of Manly's residence is submerged, and the extent of five feet. The Miner office has been cut off from the outside world. The toll bridge at Halls is being used to clear the railroad away from the bridges, and a large gang of men are employed night and day in an attempt to restore traffic.

At Kuelo, Kootenay Lake continues to rise at the rate of several inches per day, while it is but a couple of feet below last year's highest point, from vast quantities of snow on the hills. It is thought that it will go higher than in 1897. The water now covers the passenger trucks in front of the depot.

Vancouver, B.C., June 8.—Kettle River, in the Kootenay country, is on the rampage, flooding roads and destroying bridges and cutting great inconveniences and loss. News comes in very rapidly, owing to there being no telegraph service. The latest advice says the toll bridge at Halls, completed two months ago, has been washed away, blocking freight traffic, though it is expected a ferry will soon be in operation. The condition up the valley is said to be serious. At Greenwood the Boundary Falls and Rook Creek bridge have been washed away. At Grand Forks the larger part of Manly's residence is submerged, and the extent of five feet. The Miner office has been cut off from the outside world. The toll bridge at Halls is being used to clear the railroad away from the bridges, and a large gang of men are employed night and day in an attempt to restore traffic.

At Kuelo, Kootenay Lake continues to rise at the rate of several inches per day, while it is but a couple of feet below last year's highest point, from vast quantities of snow on the hills. It is thought that it will go higher than in 1897. The water now covers the passenger trucks in front of the depot.

OAK HALL

GREAT SALE OF Boys' Suits

Was such a grand success on Saturday, that we have decided to continue it

ALL THIS WEEK

Suits on the bargain tables have been reduced fully one-third. They are not "shop-worn goods," "old stock" or "job lots;" every suit (with probably the exception of 15 to 25) was put in stock new this spring.

COME IN SOME TIME DURING THE WEEK

BRIGADE CAMP NOTES.

All Pleased With the Location, the Provision of Comforts and the Kindness Shown.

A telephone has been placed in the Brigade stores.

Major Minnie is instructing the 10th Battalion Band.

Sergeant-Instructor Hunt, R.C.D., arrived yesterday to instruct the cavalry.

Major Biggar went to Kingston today on business in connection with the Brigade stores.

Col. Ponton and Capt. Stewart will speak at the Y.M.C.A. entertainment to-night.

The camp ground is now remarkably clean and even the chronic grumblers are satisfied.

The camp canteen is open from 6:30 a.m. to 9:30 a.m., noon to 2 p.m., and 4:30 p.m. to 9:30 p.m.

Corp. Smith is today instructing Co's 1 and 2 of the 10th in the use of the Lee-Enfield rifle.

The conduct of the red coats who visited the city last night was irreproachable and did them credit.

The 40th furnish the main guard to-day; Major Harrison, of the 10th, is field officer, and the 40th band provides the music.

The photographer to Her Majesty's troops is on the ground and this morning was busy developing his negatives.

Hospital-Sergeant O'Connor has now his flagpole erected (sign of the Red Cross) and is busy issuing regimental pills.

The Sergeant of the 10th will give a smoking concert in honor of the non-coms of the visiting battalions at an early date.

Sergeant-Major Thompson has been appointed Principal and Brigade Quartermaster or Sergeant Black Vice President of the Staff Sergeants' Mess.

The ladies of the W.C.T.U. are doing a rushing trade at their refreshment booth. They are now having a large stock of goods, by the lack of sufficient mail help.

The camp barber shop is doing a howling trade. The sentimental young man who arrived in camp with a large pocket shock of hair finds it an inconvenient luxury under the summer sun.

The officers of the different battalions have been ordered to report the number of men under them belonging to the following denominations: Episcopalians, Roman Catholics, Methodists and Presbyterians.

The free concert held last night was most enjoyable and was attended by a large number. Mr. D. V. Sinclair gave an excellent address, and some fine musical numbers were given by members of the different battalions.

A Church of England service will be held in the cavalry line to-morrow (Friday) evening at 7 o'clock. Short addresses will be given by Rev. J. D. Quinn, R. S. Rhodes and Rev. H. Synnott, Chaplain Prince of Wales Dragoon.

Major Johnson and Ald. Bogart called upon Col. Montanari and the staff officers of the camp yesterday afternoon.

Speaking of the location of the camp, the Commandant expressed himself as well pleased with it, and said that the health of the men had been very good.

In return for the good service rendered by the men in any other place he had attended, the men of the 10th are being treated to a large dinner by the city authorities.

He wished to do all in his power for Belleville, and would, if it were desired, have a large party of men from the 10th, and he proposed having a march out, so that the people might have the opportunity of seeing all the regiments at their best.

The officers and men of the various battalions now in camp are greatly pleased with the place chosen for it and with the service rendered by the city authorities.

They appreciate also the provision made for their comfort by the City Council.

One sergeant, who has been at many camps, has heard to the credit of the city authorities of Kingston never paid any attention to the men or made any expenditure for them, such as providing electric lighting, water and the other comforts so generously provided by Belleville.

The camp should be in this city permanently in the desire expressed on all sides.

Cool Clothing.

This weather suggests light weight garments; Quick and Robertson are showing an extensive range of Linen, Alpaca and Silk Finest Goods and Yarns. Prices are reasonable, commencing at 75c. A special line of Silk Finest Goods at \$3.00, regularly sold for \$4.00.

The Late Mrs. Williams.

The funeral of Mrs. Fred Williams, who died in Toronto on Monday, took place from the G.T.R. depot to the cemetery to-day.

Mrs. Williams was the wife of Mr. John Williams, daughter of the late Dr. Jas. D. Stewart of this city. The remains were met at the depot here by a large number of friends, including Mr. J. D. Quinn, E. G. Sils, Rev. D. F. Bogert and Dr. Chamberlain, of Toronto.

Another June Wedding.

At the Blocker avenue Parsonage yesterday, by the Rev. J. R. Rice, Mr. Geo. S. Kerr, the popular cheese-maker, of Roblin's, was united in marriage to Miss Annie Stewart, daughter of Mr. John Stewart of this city. Mr. Edmund Kerr, brother of the groom, assisted him, and Mrs. Annie Stewart was the bridesmaid. The happy couple left last night for Roblin's Mills where they will reside.

HYGIENE OF THE MOUTH AND STOMACH.

The great importance of attention to the Hygiene of the mouth and stomach is insisted upon by the Medical Profession. No better means can be adopted than the regular use of about a wineglassful of "Aperita" Water on first rising in the morning.

The mouth should be rinsed with it before drinking.

The Rolling Mills.

What is the matter with the Mayor? Is the heated term making him sour, and uncongenial, and ruffling that pleasant genial and generous disposition of his that makes him so popular with the general public?

The Mayor, in his reply to my first communication to the press on the subject of the proposed agreement for the City being a one-sided jug-handled contract, refused to be a victim of the situation, but in his final letter of the 7th inst. says forthwith, because my subsequent letters have contained arguments and proofs against the reasonableness of the City accepting the proposition in the shape it was in, that I show a mean disposition.

O dear me! It seems difficult to satisfy some people, no matter how hard one tries. The Mayor has evidently had his toes stepped on good and hard, from the squeal of despair he gives vent to in his last communication on this subject. Keep cool, Mr. Mayor, you cannot count on many of the property owners staying with you. When the Mayor presented the Mayor's statement to the Council, and in numerous individual conversations, that the Mitchell would not accept less than \$2,000 as a bonus, a free site, exemption from taxation, and the duty on the City's part to provide for them in other directions in civil affairs, they would not return for a' this agree to employ any certain number of men or agree to any stipulated amount of wages, and this is the kind of an arrangement the Mayor asked us to accept, and opposing such an arrangement as this, the Mayor characterized as showing a mean disposition. Our citizens would be only too pleased if the Mayor would exercise the same mean disposition in preventing extravagance in other directions in civil affairs.

The Mayor in his letter of the 6th inst. tells us what the Mayor's statement was, and to be a just thing must of course have been a first agreement, although he fails to find fault with the Mayor's statement, but he only too pleased if the Mayor would exercise the same mean disposition in preventing extravagance in other directions in civil affairs.

The Board of Education will hold a regu-

lar meeting on Tuesday night.

A number of prominent cyclists, including

several ladies, have been summoned to ap-

pear before the Magistrate for riding on the

sidewalks.

Madoc smelter is now in operation under

the management of Mr. W. A. Hargrove. The

owners are pleased with the works and

with the prospects.

Visiting Cards, Business Cards, Hand

bills, Posters, Envelopes, Bill Heads, and

Statements printed and sold at the INTELLI-

gence job office. Good workmanship and

low prices.

Madoc Village Council has decided to ask

the property-owners of Madoc to vote on

July 14th on the question of providing bet-

ter fire protection for the village in the

shape of a steam fire engine.

After 1898, there will be no Primary Ex-

amination, or Examination for non-pro-

fessional Third Class certificates. Those who

wish to teach in a Public School will here-

after have to secure Junior Leaving or non-

professional Second Class certificates.

The theory as well as the practice of the

most prominent and successful advertisers

is to use a select number of mediums and

use those mediums continuously.

The postponed meeting of the Quinte Gun

Club will be held at the office of Mr. G. J.

Johnson on Tuesday, June 14th at 7:30 P.

M. Members are all requested to attend, as

important business is to be transacted.

The newspaper that reaches the people in the

quiet of their homes, where plain facts are

best appreciated, to the intelligent, is by far

the most preferable medium of communication.

That paper in Belleville is the INTELLI-

gence.

It has been noticed on the street this last

week or so that Tan Shoes are being worn

more than they were before, not only on ac-

count of the warm weather but also because

of Lockett's are showing much prettier

shoes than were ever shown here before.

Don't forget to call and secure a pair before

they are all gone.

Mr. Alexander Bay, the popular druggist

and optician, has been making extensive

repairs to his premises and now has the

most attractive business places in the

city. He has recently purchased a new

repaired and finished in white enamel.

The partition has been moved farther back

and a room has been fitted up for optical

purposes. In addition to these improve-

ments, Mr. Bay has recently purchased

some very new and unique optical in-

struments for testing the sight.

Teachers' Summer School

The attention of school teachers

is directed to the advertisement on page

four of the teachers' session of the Bel-

leville Business College. Bookkeeping,

Stenography and Drawing are the three

specialties. The course lasts from July 5

to August 20th. The advertisement will

be found of special importance to teachers,

offering as it does a delightful and pro-

fitable holiday.

Mr. Flavian Dupont, sen., has taken an

action for \$10,000 against the Grand Trunk

on account of the death of his son, the late

Mr. Flavian Dupont, M.P.

The future is uncertain, but if you keep

your blood pure with Hood's Sarsaparilla

you will be sure of good health.

BRIGADE CAMP NOTES.

The 3rd Dragoons paraded to the city

this morning.

One of the battalions will henceforth be

drilled on the Agricultural grounds.

The afternoon parades for infantry will

be from 2:00 to 4:30.

The idea of an Anglo-American alliance

is very popular among the officers in camp.

The whole of the 16th and Cos. 1 and 2

of the 40th are ordered to-day for tar-

get practice.

The correspondence tables provided by

the Y. M. C. A. are very much appreciated

by the men.

The sick of the different units in camp

must be paraded at their regimental head-

quarters at 8 A.M. every day.

Major Biggar has returned from King-

ston, where he was helping to lay out the

grounds for the camp there.

If the merchants and others were to try

their flag whilst camp is on, the appear-

ance of the city would be much improved.

A very large number of citizens visited

the camp last night and listened with in-

terest to the excellent music furnished by

the 40th Battalion Band.

Capt. Perry Rogers, of the 40th, has

gone to Ottawa on leave.

He is employed as an engineer on one of

the Western railways now being projected.

The hero of many a camp in Major and

Paymaster George. Gullitt, of the 40th, is

now in the city.

He has literally grown grey in the

service, and yet is a young man.

One of the finest looking officers in camp

is Col. John Hughes, of the 40th. The

camp would like to know when he sleeps

for night and day he is on the alert for

the welfare of his Battalion.

Major Gullitt, M.P., of the 40th, ex-

presses himself as very much gratified at

the attention shown to the men by the

citizens of Belleville. He would be in

favor of having the brigade camp held here

permanently.

The 40th provides the main guard to-

day; Major Lightbulb, of the 16th, is

field officer; the medical officer is Surg-

-Major Young, of the 3rd Dragoons; the

medical ranger officer is Surg-Major Wil-

loughby, of the 40th; the 46th band will

provide the music.

The promise of the Mayor to have the

streets watered on Saturday night that the

troops can march to the city on Sunday

morning without being covered with dust

has been accepted. The men would

be glad to march to the city and sit comfort-

ably in a church to stand during an hour's

service under a blazing sun on the day of

rest.

Private Herbert Thurston, of Milford,

No. 2 Company 16th Batt., was very seri-

ously injured last night. He was indig-

ing in some home-play with a com-
rade, who accidentally threw him over his

shoulder and the unfortunate man sus-

tained dangerous internal injuries.

Arthur Robinson, of the 40th Battalion

Band, is proving himself to be the pre-

mier entertainer of the camp. During his

rendition of a pathetic selection last night

it was said that Capt. Stapleton's white

charger was affected by a spasm. His

most blood-curdling effort, however, is a pa-

triotic oration entitled "The Flag of Liberty."

Meets Your Needs.

When you feel tired, languid, nervous and

are troubled with pimples and eruptions,

will find Hood's Sarsaparilla exactly

meets your needs. It purifies and enriches

the blood and imparts to it the power to

meet the needs of the body and nourish

the whole system. It cures all blood troubles.

HOOD'S PILLS cure sick headache, nau-

sea, biliousness and all liver ailments. Price 25c.

The Council Committees.

The Market Committee met last night

and passed the accounts of James Maloney,

70c, and Capt. Allen, \$23.55. Ald. Falkner

and McCann were appointed a Commit-

tee to draft rules and regulations for the

management of the market squares.

The Public Works Committee passed

pay sheet number 12, amounting to

\$703.12, and the following accounts:

Henry McInnis, \$13.20; John Lewis &

Co., \$7.00; Rathbun Co., on account,

\$1,000. It was recommended that a

concrete sidewalk be built from Ann st.

to William st. on the south side of Bridge st.

The Anglican Ladies.

At yesterday's meeting of the Convention

the following officers were elected: Presi-

dent, Mrs. Rogers; 1st Vice-Pres., Miss

Gibson; 2nd Vice-Pres., Mrs. Star;

Rec. Sec., Mrs. Smythe; Cor. Sec., Miss

Daly; Dorcas, Sec. Miss Muckleton; Sec.

for Literature, Mrs. B. Smith; Junior

Sec., Miss Lewin; Sec. for Extra Cent a

day fund, Miss Wilson. A conference on

junior work was held, with Rev. S. Rhodes

in the chair. An encouraging report was

read by the Secretary, and an interesting

paper "Junior Work" by Miss Smyth.

Miss Montanari also delivered an im-

pressive address.

The Board met this morning and dis-

cussed plans for next year's work. Most

of the delegates will leave this afternoon.

Next year's Convention will be held at

Prescott.

The ladies all spoke very highly of the

treatment they had received from the

members of the local Auxiliary.

A Long Siege of Santiago.

Off Guantanamo, June 8 (via Mole St.

Nicholas, June 9.)—It is apparent that Ad-

miral Sampson is preparing for a long siege

of Santiago. The reconnoissances that have

been made by the ships and the observa-

tions made by the balloons have been com-

municated to the fleet have convinced the

American officers that Santiago can only be

taken by a combined land and sea at-

tack or by starving out its defenders. Some

of the officers have a much higher opinion

now of Admiral Cervera than they enter-

tained when they found he had taken re-

fuge in Santiago harbor.

At the Toronto Methodist Conference

held at it was decided that under the

discipline of the church women are not

eligible as delegates.

Daily Intelligence.

THE EXPONENTS OF ECONOMY.

"I wish to call attention to this fact, that as Liberals we have a right to say that we are the exponents of economy. Our opponents do not even pretend to be economists. They are the people who distribute it among their friends."
 The foregoing is an extract from the speech of Mr. Clifford Sifton at the Liberal Convention held in Ottawa in 1893. The national expenditure in that year was \$36,814,053.

Mr. Sifton is now a member of a Liberal Administration, who have demonstrated their ability as "exponents of economy" by passing through Parliament estimates proposing the following expenditures for the coming year:

Regular estimates	\$44,912,571
Supplementary	8,000,000
Public works	10,000,000
Judicial salaries, additional	27,000
Payable	1,000,000
For schools	300,000
On account of Parliament building	475,000
Total	\$63,614,447

Under the rule of the self-proclaimed "exponents of economy," the enormous sum of \$12,000,000 per annum has been added to the public expenditure.

In brief the Liberals have increased the scale of expenditure, which five years ago they denounced in unmeasured terms, by one-third.

THE FISHERIES.

The decision of the Privy Council in the fisheries case makes a division of interest which may have an injurious effect upon the fisheries, remarks a contemporary. It holds that the beds of the lakes and rivers belong to the Provinces, which therefore have fish and have a right to the revenue, but the Dominion has the right of regulation. The question is, will this right be exercised by the Dominion or thrown upon the Provinces? The revenue from fishing licenses in Ontario for 1897 was \$32,814, and the expenses of wardens, overseers and protective officers \$21,053. The Province will hereafter receive this amount, but if the Dominion Government has to continue to bear the cost of regulation and enforcement, it is taken up as a heavy burden.

THE TORONTO TELEGRAM REMARKS.

"The Toronto Telegram remarks that the appointment of Malcolm Colman, late of West Toronto, to be Commissioner of the Dominion Fisheries, does violence to the professions of the Liberal party in Opposition. The professions of the Liberal party in Opposition must be getting pretty well used to having violence done to them. The loudest declaimers against the Tory habit of giving offices to members of Parliament are the most eager grabbers after office when their own friends are in power."

GOVERNMENT IMPERACHED!

Ministry is "Leprous With Dis-simulation!" Says Mr. Davin.

Mr. Richard Cartwright Awards a Contest Without Tender—Leaves Toronto as Acting Minister of the Interior—Mr. Hargrove and Clarke Wounded—Take Exception to Tarte's Alleged Epithets—Live! Live! in the House.

Ottawa, June 11.—In supply yesterday morning the first snag was struck in the mail subsidies and steamship subsidies supplementary. Mr. Richard Cartwright had awarded to a Manchester corporation, without tender, the contract for supplying a direct fortnightly steam service between Montreal, Quebec and Manchester, England, during the summer season, and between St. John, Halifax and Manchester during the winter season. For this 25,000 tons of coal at 10 cents per ton, and for the use of 10 knots. For this 25,000 tons of coal at 10 cents per ton, and for the use of 10 knots.

Mr. Foster severely reprimanded the Minister of Trade and Commerce for letting the contract without tender and for having the matter taken to the end of the session without referring to the House on the subject.

Mr. Richard Cartwright stated that the contract was not yet signed, although an agreement had been arrived at. He accused Mr. Foster of delaying the progress of the estimates by irrelevant, long-winded speeches. This Mr. Foster denied, saying that he had not intended to do so. He claimed that the clamorous of the Opposition press to the Government to award the contract to the House of Commons.

Mr. Foster said that the Minister for the Interior had taken the matter to the House of Commons, and that he had not intended to do so.

Santiago Bombardment Thought to

Have Been to Cover Landing of Troops.

London, June 11.—A cablegram from

Havana, received here yesterday, by Ha-

vana, says that the American fleet again

bombarded Santiago to-day. The engage-

ment lasted from 8 to 11 o'clock and covered

the landing of the troops. The Span-

iards claim the Americans were repulsed.

THE COUNTY COUNCIL.

A Quiet Session—The Warden's Address—Vote of Thanks to Col. Ponton—Mr. Flint's Office.

The County Council met at 2 o'clock Monday afternoon, the following members being present: Warden McCarver, Messrs. Holgate, Dench, Danyes, McFarlane, Hanley, Pearce, Parker, Clark, Kirk, Cross, English, Levesque and Douglas.

His Honor the Warden then delivered his address. He was glad to find the members all in good health and hoped that they would have a profitable and harmonious meeting. He was glad to notice the excellent prospects for road improvement and the signs of returning prosperity which were everywhere visible. He referred to the business which the equalization of taxation, particularly the equalization of taxation, was particularly the equalization of taxation. He hoped all the discussions would be tempered by fairness and common sense. Several communications were read and referred to their respective committees.

Mr. Kirk presented the report of the Superintendent of Roads and Bridges, and on motion this report was referred to the Committee of the Whole on Roads and Bridges.

It was moved by J. S. Dench, seconded by J. H. Ross, and carried unanimously, that the thanks of the Council be and are hereby extended to Col. Ponton for the handsome photo of his grandfather which he presented to the Council, and that the same be forwarded to the Col. by the Clerk.

On motion it was decided to have the photo hung over the Warden's chair under that of Her Majesty and commoners.

The Council went into committee of the whole on roads and bridges. The report of the Superintendent was received and laid on the table.

The committee rose and reported progress and asked leave to sit again.

The Council adjourned.

TUESDAY MORNING'S SESSION.

The Council assembled at ten o'clock, all the members being present. The Warden referred to the presence of Mr. S. Russell, M.P., and Mr. G. E. Deroche, of Deseronto, and invited them to take a seat with him at the table.

A communication was received from Anson Jones stating that he had received injury owing to an unprotected bill and asking the Council to pay the bill.

The Council decided to refer the matter to the Committee on Roads and Bridges.

A communication was read from the Council of Faraday regarding a bridge over the L'Anse au Loup, which was to be either repaired or reconstructed. Referred to the Committee on Roads and Bridges.

The Hospital Board invited the Council to visit the hospital to-morrow afternoon at four o'clock.

The Committee appointed to enquire into the matter of the Police Magistrate and fees, presented their report recommending that the Council memorialize the Lieutenant-Governor in Council to cancel the agreement entered into in 1887 between J. J. B. Flint and the County of Hastings.

The committee felt that Mr. Flint did not care the salary of \$800 paid him by the County and they felt that his services could be dispensed with. The Warden defended Mr. Flint, he thought that the Committee had exceeded its powers.

Mr. Flint had been elected cases where Mr. Flint had not collected fines and he found that in every case the Magistrate had acted as the best interests of the County. Messrs. Dench, Cross and Macfarlane claimed that the Magistrate's books had been kept in a very irregular and slipshod manner, but his duties were not as much lighter than when he was appointed, as Police Magistrate had since been appointed in Deseronto, Trenton and Brockton. Mr. Flint had been elected cases where Mr. Flint had not collected fines and he found that in every case the Magistrate had acted as the best interests of the County.

The motion of Mr. Dench that the report of the Committee be adopted and that the memorial be signed and forwarded to the Lieutenant-Governor was carried.

The Council went into Committee of the Whole on Communications, Mr. Clark in the Chair. The petition of the County of Lanark in regard to homes for aged people was concurred in.

A communication was read from the Education Department that the amount of the High School grant due June, 1898, was as follows: Sterling, \$47,141; Madoc, \$50,833; Deseronto, \$29,888.

A communication from the Deseronto and Madoc High Schools, asking for certain reductions in non-resident pupils' fees, was referred to a special committee.

LET THERE BE LIGHT

Thrown on the Subject of Home Dressing.

There are dyes—the world-famous Diamond Dyes—that crown our labors and home dyeing with perfect success, and there are imitations and worthless dyes that bring ruin and disaster wherever they are used.

There are dyes—the chemically pure and scientifically prepared Diamond Dyes—that have brought blessings to millions of homes for long years, and there are the vile preparations and mixtures of imitations who, as the style of packages is changed, so near the "Diamond" as they dare go.

But what shall be said of the contents?—The Diamond Dyes are the only ones that have been asked to do with a little more care in the press of the country. These imitation dyes are simply deceptions; they are adulterated and dangerous preparations, harmful to the hands of the user, and destroyers of valuable garments and materials.

The manufacture of Diamond Dyes is reduced to a science, and to-day they are the only dyes that guarantee their work—that they produce permanent and brilliant results which will follow the plain directions.

Many of our best and most successful dyers, who have been successful in their work, have sold them to the unsuspecting public. Avoid all imitation package dyes as you would avoid poisonous cures.

SHRIMP PIE
(A Popular Receipt).

First make a drawn butter sauce by taking two tablespoons of flour and half a cupful of butter and working together until light and creamy. Then gradually add one pint of boiling water, stirring constantly until smooth, but do not let it boil. Let this stand about 10 minutes, when add two tins shrimps. Pour the whole mixture into a round baking tin, covering top with strips or small triangles of pie paste, baking until brown, or about 30 minutes. This will serve six people.

ALLIANCE ON EVEN TERMS.

The following article appeared, under the above heading, in the New York Commercial Advertiser on a recent date:

The recent bread riots in Italy and Spain and the action of France and Austria in the Balkans have created a feeling of uneasiness in the United States. It is a feeling of uneasiness that the present war would curtail shipment of wheat to Europe, and that the United States would be left with a surplus of wheat in the hands of the Government. It is a feeling of uneasiness that the United States would be left with a surplus of wheat in the hands of the Government.

When it is said, therefore, that an alliance between the United States and Great Britain is out of the question because we have nothing to offer the latter in exchange for her military support, it is forgotten that the United States has a surplus of wheat in the hands of the Government. It is a feeling of uneasiness that the United States would be left with a surplus of wheat in the hands of the Government.

Every woman who
 hopes and expects to
 be a mother should know
 that if she is in a state
 of unusual weakness or
 disease at the time
 of her confinement, the
 child will be born in an
 unhealthy condition
 and will be liable to
 die. It is therefore
 imperative that every
 woman should be in a
 healthy condition at the
 time of her confinement.

THE
 RECORD
 OF
 THE
 RECENT
 CASH
 PURCHASE!

It's a fact—we will now break the record in clothing selling.

We, last week, closed a deal with the Sanford Mfg. Co. (Canada's foremost clothing manufacturers) for an immense quantity of men's suits for spot cash. They comprise a great variety of colors, and not one suit in the lot is worth less than \$7. and part of them are worth \$8. We want to

TURN THEM INTO MONEY
 quick, and will offer the choice of the entire lot at

\$5.00 THE SUIT.

Our north window is full of these suits, so you don't even have to come into the store to be satisfied that they are dandies.

You will find the more thoroughly you make comparisons in clothing before buying, the more you will appreciate the wonderful bargains we offer. We challenge any clothing house in Canada to come anywhere near our prices.

We don't wish to bore you with blatant boasting or deceive you with false promises. Come in and see if we are not as good as our word.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVILLE ONTARIO, SATURDAY, JUNE 18, 1898.

EXECUTE THE REDCOATS.

The Canvas City is Now Deserted.

After Ten Days' Hard Drill, The Boys Return to Their Homes and Sweethearts—The March Out Yesterday—Minor Notes.

This evening the camp which yesterday was so full of life and animation is deserted. The last boy in scarlet is gone, leaving behind him, mayhap, a trail of vanishing hearts.

This morning at eight o'clock the order was given to break camp and at nine o'clock the boys were on their way to their homes. The boys were gathered up as neatly and expeditiously as though it were done by the best of housewives. As each battalion left camp it gave three ringing cheers for the most enjoyable camp which this district has ever had.

The 40th, 46th and most of the Dragoons left by the C. T. R. at noon. The 16th and Troop D. of the Dragoons left on the Merritt at 10. The staff officers left this afternoon for their respective homes. The boys leave here greatly improved in personal appearance, and we trust also mentally and morally. Young men of the future have little chance for social intercourse cannot but be brightened and elevated mentally by coming in contact with so many others. It is true that there are always a few who are not so well attached to every camp, but their effect is not as great as is generally supposed. The strong young man will only be helped by the comradeship of the camp. The weak and dissipated will be helped by the assimilation which is strong and good in all and reject what is weak and evil. The redcoats return to their benches, their counters and their ploughs better qualified to become good citizens and loyal subjects. Belleville extends to them all her very best wishes for their health and prosperity and trusts to have them back again next year.

THE MARCH OUT.

The parade yesterday afternoon of the entire force was a most interesting sight. The streets were thronged with spectators, the majority of whom were ladies. It was almost four o'clock before the vanguard of the parade reached the front of the parade ground. The 40th, 46th and most of the Dragoons left by the C. T. R. at noon. FOUND DROWNED.

Probably a Case of Suicide—Cheese Factory Burned.

(Special to the INTELLIGENCER.)
PETERBOROUGH, Ont., June 18.—The body of Charles Phillips, an Englishman, was found floating in the Little Lake here last night. The man had been missing for some few days. It is supposed to be a case of suicide while temporarily insane. A note of the man was found near the body, and it was dated June 11. The man was in the neighborhood of \$2000. Partly insured.

IN BED FOR WEEKS.

And Every Breath She Drew was an Excruciating Pain—Rheumatism had Fastened his Talons on her—Procy—South American Rheumatic Cure Stretched her From her Grasp.
"My friend, I have been troubled with rheumatism. It had settled in my back. At times the pain was so severe as to render me almost insensible. I was just about discouraged and had given up when I was recommended to try the South American Rheumatic Cure. The first bottle enabled me to leave my bed, and in one week I was able to go to my usual work. The second bottle cured me for rheumatism." Mrs. John Beaumont, Elora, Ont. Sold by J. S. McKee.

A WOMAN'S SUICIDE.

Mrs. Mouch, of Tamworth, Poisons Herself with Paris Green.
(Special to the INTELLIGENCER.)
TAMWORTH, June 18.—Mrs. Jack Mouch, aged 26 years, swallowed a quantity of Paris green yesterday afternoon with suicidal intent. "My life," said the woman, "it was too late, the poor woman dying at 7 o'clock last night. The cause of her act is not definitely known."

Boys' Suits for \$1.50.

Where else, but the Oak Hall, can you get such a suit for a boy at \$1.50? It is worth this money to make it up, and yet in addition we furnish you good cloth, good trimmings, good fit, all size 22 to 28, and you may have either single or double breasted suits. Such bargains at the Oak Hall only.

Magistrate Fined \$5.

Hugh Gribben was fined \$5 for disorderly conduct and furious driving. R. C. Farman was charged with selling liquor during prohibited hours. The action was dismissed. W. P. McMahon for defence.

Cool Clothing.

This weather suggests light weight garments; Quick and Robertson are showing an extensive range of Linen, Alpaca and Cashmere. All well draped, elegant and reasonable, commencing at 75c. A special line of Silk Finish goods at \$3.00, regularly sold for \$4.00.

Farwell Garden Party.

To Rev. Dr. Cade on Tuesday evening, June 21st, 1898, on Passage grounds, opposite the Marchmont House, five o'clock will be done to make the evening pleasant. A good programme. Ice cream, lemonade, and refreshments. Come everybody and enjoy a pleasant evening. Have a parting hand-shake with the Rev. and his family. Tickets, single 15c, double 25c.

Stinging Corns.

Next to a stinging conscience, make life a misery. The stinging pain of a corn can be speedily and painlessly removed by the use of Putnam's Painless Corn Extractor. Come everybody and enjoy a pleasant evening. Have a parting hand-shake with the Rev. and his family. Tickets, single 15c, double 25c.

Excellent Discourses.

Despite numerous counter-attractions, there were good audiences present yesterday in the Baptist church who heard two very spiritual discourses from Rev. Elmore Harris. He spoke in the afternoon in a most practical manner on the method of abiding in Christ. In the evening he gave a helpful discourse on the Most Holy Place, devoting special attention to the increase and the rent. As a sequel to his afternoon discourse, Mr. Harris will speak to-morrow morning on "The Sabbath rest" and in the evening on "The True Canaan." This will conclude his labors for the present, but it is the prayer of many that he may be able to return at a later and more favorable time for a longer stay in our city. He will be followed by the best wishes and prayers of all who heard him, as he leaves on Monday.

NAIRAGERS.

McHUGH-DOLAN—On the 15th inst. by the Rev. Mr. Farwell at St. Michael's Church, Belleville, EDWARD McHUGH to MARY TERESA, daughter of Mr. and Mrs. Frank Dolan.

Teachers' Summer School.

The special attention of school teachers is directed to the advertisement on page four of the teachers' session of the Belleville Normal College. Bookkeeping, Stenography and Drawing are the three specialties. The course lasts from July 5th to August 1st. The advertisement will be found of special importance to teachers offering as it does a delightful and profitable holiday.

Rev. A. H. Ranton Here.

Rev. A. H. Ranton, the popular Evangelist, who labored so successfully here a few months ago, arrived in the city today. This visit is in fulfillment of the promise given when he here before, that he would visit the city for a day or two during the month of June. Mr. Ranton will address a helpful discourse at St. Michael's Church in the evening, and will be present at the Aquatic Society of the Epworth League on Monday night. He will leave Tuesday morning on the Hamilton for Nova Scotia.

To Cure a Cold in One Day.

Take Laxative Eucalypti-Quinine Tablets. Let Druggists refund the money if it fails to cure. 25c.

The Cash System.

ALTHOUGH heretofore our terms have been nominally cash, yet credit has gradually crept in, until now in justice to the cash principle we feel that we must make a change.

After full consideration we have decided that on and after the 1st of July next we will strictly enforce the **Cash System** in connection with our business.

It is needless to call attention to the losses included in running a credit business, such as office expenses, interest, bad debts, &c., as the great majority of people are fully aware of its dislike to buyer and seller.

Standing as we do directly between the world's producers of our different lines of goods and the consumers of the Bay of Quinte district, we realize our position to be one of public service, and hesitate not to declare it to be our ambition to make this service the most efficient to be found in Canada.

This ideal position we feel can only be reached through the "Cash System" with the rendering and collecting accounts, turned into the channel of wide-awake business management, we believe we will occupy a vantage ground far in advance of our present position.

We have no intention by this action to reflect upon any. In obedience to our convictions we adopt a rule of business, which we are firmly convinced will be advantageous to our customers as well as to ourselves, and ask for the hearty co-operation of all in the mutual interest.

Having fully determined to firmly adhere to this rule in the future, our customers will kindly not ask us to transgress.

Again asking for your cordial co-operation and assuring you of our best services at all times, we are

Feed the Nerves!

South American Nerve is a powerful nerve builder and makes rich, red, healthy blood.

We live by nervous force, and if there is derangement at the seat of good health, the whole physical organization suffers—two-thirds of all ailments common to humanity can be traced to sick nerves. Naturally the weakest part is the one attacked, and in the case of the stomach—ends too often in physical impure blood, exhaustion, emaciation, loss of appetite, indigestion, general debility and wasting diseases—all for lack of replenishing an overworked system. South American Nerve is the greatest of all nerve foods—purifies the blood, clears the system of all impurities, tones and strengthens the digestive organs—wonderful remedy in cases of female weakness and functional derangements peculiar to her sex.

Try a good bottle of South American Nerve. Mrs. Geo. Schley, of Berlin, Ont., says: "I always felt weak and tired; at night I could not rest on account of nervousness; my body became wasted almost to form an operation. I tried South American Nerve, and desired to per-give me great relief. I took eight bottles and am cured completely."

SOUTH AMERICAN KIDNEY CURE.

—disorders the most common of all ailments. Bright's Disease, inflammation of the Kidneys—Cure Pain, and all disorders directly attributable to diseased Kidneys. A never failing, quick relieving medicine, endorsed by best physicians everywhere.

SOUTH AMERICAN RHEUMATIC CURE.

—in chronic cases of Rheumatism, Neuralgia, Lumbago and kindred ailments, where the suffering has been long and constant. Many famous cases have been relieved—a witness from one suffering, but few days of South American Rheumatic Cure worked wonders.

YEARS OF SUFFERING

Brought About by a Fall in the Back Was Severely Injured—The Pain at Times Almost Unbearable.

Mr. Geo. F. Everett, a highly respected and well known farmer of Four Falls, Victoria Co., N.B., makes the following statement: "Some years ago while working in a barn I lost my back and fell from a beam, badly injuring my back. For years I suffered with the injury and at the same time doing all I could to remove it, but in vain. I at last gave up hope and stopped doctoring. My back had become so stiff that when I would stoop over it was almost impossible to get straightened up again. When I would move with a sprain so severe that I was unable to get up without the aid of my hands. At other times it would pain me so that it seemed as if I could scarcely endure it, and I would lean on the handle of my scythe in order to get ease and straighten up. At other times it would be laid up entirely. After some years, suffering in this way, I used Dr. Williams' Pink Pills, and decided to try one box. Before I had finished it I saw the pills were helping me. I bought six boxes more and the seven boxes completely cured me. It is three years since I took them, and my back has not troubled me since. Dr. Williams' Pink Pills are an invaluable medicine and I heartily recommend them to any person suffering like I was. I could not count the number of boxes for them, they would be a cheap medicine."

Rheumatism, sciatica, neuralgia, partial paralysis, locomotor ataxia, nervous headache, nervous prostration, and diseases depending upon impurities in the blood, such as eczema, chronic cystitis, etc., all disappear before a fair treatment with Dr. Williams' Pink Pills. They give a healthy glow to pale and sallow complexion. Sold by all druggists and post paid at 50c a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Do not be persuaded to take some substitute.

Hood's Pills cure sick headache, nausea, biliousness and all liver ills. Price 25 cents.

Spraying Fruit Trees.

For five weeks agents of the Ontario Department of Agriculture have been giving instruction in the spraying of fruit trees at thirty orchards in different parts of the Province. Henceforth, the use of the sprayer in orchards in charge of this work, have just been received at the Department, to the effect that fungus is now appearing on apple and pear trees, and threatens to do extensive injury to these crops unless checked at once by spraying. Insect enemies also are more numerous than usual this year, and the extent of the injury they have set well, and where properly cared for there is promise of a good crop. In spraying apple trees to check or prevent the use of the Bordeaux mixture, made as follows:—Sulphur, 4 pounds; Lime, 10 pounds; Water, 40 gallons. Suspend the copper sulphate in five gallons of water, and mix by putting in a bag of coarse material, and hang it so as to be covered by the water. Shake the line in about the same quantity of water. Mix the two, and add the remainder of the five gallons of water. When water will dissolve the copper sulphate more readily than cold water. If the time is at all dirty, strain the mixture through a cloth.

HOG TRADE IN DANGER.

Mr. Wm. Davies Warns Exporters of What May Happen—Inferior Bacon as Result of Feeding Clover and Corn to Pigs.

The following letter received from the President of the Wm. Davies Co. (Limited), of Peterborough, draws attention to the danger to the Canadian export trade in hogs arising from injudicious feeding of stock.

To the Editor of the INTELLIGENCER.

SIR,—There has appeared in your valuable journal and various other publications from time to time statements as to the superior quality of Canadian bacon, and its high standing in England, compared with American.

This is being very seriously jeopardized by the feeding of clover and corn to fattening hogs. The result is, bacon cures are overwhelmed with soft trash, far inferior to the best American. Hog feeding has been highly advantageous to farmers, paying them well, while cattle have been a losing game, but this cannot go on, unless the feeders do their share in keeping up quality.

All farmers persist in feeding grass and corn, the pork packers will have to do one of two things: refuse to pay for them until they are dressed and sold, then grade price according to quality, or lower the price so that a figure will cover the loss on the poor quality.

One thing is certain, we cannot go on paying over a cent per pound for Canadian bacon that American under the standard of quality is kept up.

Of course these farmers who are feeding as described, think they are doing a clever thing, but they are simply "killing the goose that lays the golden eggs." Canada would not be the first country to lose prestige and profit. Germany once did a large export bacon business, but it is now a thing of the past. The Irish feeders have been originally careless in this regard, and in trade in bacon has dwindled to small proportions and appears to be a dying industry.

Denmark is losing its reputation for similar carelessness, and if Canadian hogs are not kept up to the highest standard, Canadian bacon will quickly return to the level of American, from which, by painful and abortive efforts, it has been lifted. Inspired wisdom wrote: "A word to the wise is sufficient." We hope it will be in this case.

(Signed) WM. DAVIES.

The Yacht Waikiki.

An interesting story of our harbor last night was the yacht Waikiki, which arrived at seven o'clock and left early this morning. The owner, Capt. Rowe, a retired navigator, is on a tour with his wife and intends to take a good portion of the water system of the Continent. He is a resident of Tampa, Fla., left New York several weeks ago with his yacht, sailed down the coast to the Gulf of Mexico, having chased once by an American cruiser and once by a Spanish vessel, under the impression that it was a desperado boat.

He sailed through the Mississippi and Illinois canals to Lake Michigan, and thence he sailed through the lakes, calling at all the principal towns and cities on the way. Capt. Rowe intends to go down the St. Lawrence and along the coast to Labrador and from there down the coast to his home. Both he and his wife are owners of wheels and they can thus see the sights of the town at which they call without any difficulty. The Captain is full of the incidents of his travels, expresses great admiration for the Canadian towns he has visited.

The Waikiki is run by means of naphtha and the fuel during the trip has cost over \$2,000. It is fitted up in most luxurious style and is a regular palace float. The crew consists of one man and the cook, in addition to the Captain.

Magistrate Flint's Court.

The case of F. Mercier, who is charged with an unusual offense, was enlarged until Friday.

Nellie Babcock, fifteen years of age, was arrested at the instigation of her father, on the ground that she was an incorrigible. After hearing a great deal of contradictory evidence, Mr. Flint sent her home on trial for a week, and if she does not behave herself and stay in her room, he will send her to some reformatory.

Slasher Cummings, whose face frequently appears in the police court dock, was arrested this morning for drunkenness and disorderly conduct.

The Drill Hall Was Crowded Last Night

The ladies of the W.C.A. who have given so much self-denying labor to the cause of the Hospital must have been pleased indeed to observe the large number of old and young who found their way to the entertainment in the Drill Hall last night. Those who attended could not but have been delighted by the programme and by the appearance of the hall. The booths and their occupants looked their prettiest, while the programme, although not of a light character as that of the previous night, was one which none could fail to appreciate.

O'Flynn's Bible Class Orchestra was present and abundantly sustained its excellent reputation, by the selections rendered.

Hogan's Alley, whereby may be seen the combination of incongruities which is such a marked feature of the character of Mr. Hogan's countrymen, was visited by a large number. Fun and July also attracted many.

St. Andrew's Church Broom Brigade was present and gave a splendid exhibition of marching and physical exercises. So well indeed did the young ladies go through the movements that some members of the N.Y. who were present were observed to turn green with envy. Capt. Stewart and Sgt. Sharp deserve credit for the manner in which the Brigade has been drilled. The members are: Captain, Miss Robinson; Bugler, Miss Ponton; Misses Harris, Hay, Taylor, S. Taylor, Gunn, MacMillan, Cay, Leavens, E. Harris, Graham, Gordon, Fringle, Martin, Matheson, Milne, L. Wilson, B. Wilson, M. Wilson, Ormond, J. Donald, H. Donald, Northcott, Keith and Anderson.

The balance of the programme consisted of tableaux, all of which were designed with artistic skill, and executed with fidelity.

The First was the Hospital, which gave a view of one of the wards, with a pretty nurse, Miss Ferguson, in the performance of her duties. Portraits Not Guaranteed followed, the parts being taken by Miss Hope Sewell and Master Lawrence Sewell. The pretty youngsters were much admired by all the mothers who were present.

"National Mothers" followed, by fifty little girls arrayed in the costumes of the different nations. The array of sweet young faces which was presented to the audience took its breath away. "Goodnight" followed, by eight little tots in night-dresses with tapers. Their names were: Ellen Hamilton, Elina Wallace, Grace Garret, Irene Harkins, Edith Cronbie, Nellie Soles, Lottie Bulpitt, and Florence Davis. Portraits Guaranteed, undoubtedly the most unique in design and most faithful in execution, was taken by Miss Hope Sewell, Milburn, Clarke, Anderson and Newbery. The closing tableau was a very faithful representation of a Japanese Tea by Mrs. (Dr.) Perry G. Hamilton, Master Cyle and Holben.

NOTES.

In our description of the booths in yesterday's issue we omitted to mention the Corticelli Silk considered by a great many to be the finest in the building. This is charge of Mr. (Dr.) Clarke, Misses Williamson and Gibson. Their sale last evening was so large that their whole stock was cleared out and a fresh supply had to be procured. The ladies are very grateful to the Corticelli Silk Co. for their large gift of silk and fancy work. No one should fail to visit this most attractive booth.

Badly Damaged.

NOT BEYOND REPAIR HOWEVER. It has been reported that one of the men-of-war belonging to the American squadron was badly damaged and had been sent to the navy yard for repairs. She will again be ready for active service in a few weeks. A warship is a big thing to handle, and yet as delicate as a watch.

On good authority, John H. Root, Hamilton, Ont., was consumed as incurable of Diabetes, Kidney Disease, and Sciatica, the results of Southern Fever. He was repaired by Ryckman's KIDNEY CURE and is now doing active service as night clerk at the Royal Hotel. His story is best told in his own words, given in the form of a SWORN STATEMENT.

"Twelve years ago I contracted fevers in Central America, and after passing through the usual course, returned home a cripple. I was afflicted with a complication of diseases arising from impure blood and disordered general constitution, and was told by different physicians that I had about every disease that could possibly arise from the above causes—such as Sciatica, Lumbago, Rheumatism, Diabetes, and Dropsy, and general debility. Science and skill failed to cure me, but Ryckman's KIDNEY CURE did the medicine that removed every ache and pain from my body, and to-day I am a healthy man in every respect. I recommend the medicine most heartily, and give this every declaration without solicitation, Aug. 27th, 1896, before a Commissioner."

The above testimonial in full with picture of Mr. Root, and other sworn declarations, free on application.

Kidney Cure sells for \$1.00 per bottle, or 6 for \$5.00, from your druggist, or direct from the manufacturer.

Rev. C. W. Watch Arrives.

Rev. C. W. Watch, the new pastor of Holy Trinity Church, with his family arrived in the city to-day and received a warm welcome from his congregation. He is a preacher of great popularity, and a prominent social reformer. Mr. Watch is a journeyman if not, having been for a considerable time editor of the Social Party department of the Hamilton "Templar." Mr. Watch will undoubtedly be a strong addition to the Minister's ranks here, and we cordially welcome both himself and his family to the City of the Day.

The recently purchased parsonage, which Mr. Watch will make his home, has been greatly improved during the past few weeks. The interior has been completely re-papered and re-painted and several changes made in the arrangement of the rooms.

The interior of the building will also be painted and the grounds improved. When these improvements are completed the pastor of Holy Trinity Church will have a beautiful home.

THE ELOCUTION CONTEST.

Five Coming Elocutionists Complete—
Miss C. V. Haynes Secured the
Medal.

The three gentlemen, who sat in judgment
upon the respective merits of the
five clever young ladies who competed
for the gold medal for elocution in Massey
Hall last night, had no misgivings. Indeed,
to the casual observer it is a subject of
wonder how they succeeded in fixing upon
the lady best entitled to the medal, the
manner and delivery of the contestants be-
ing of such uniform excellence. However,
the judges after a long consultation award-
ed the coveted medal to Miss C. V. Haynes,
who recited a difficult selection from
Shakespeare. Miss Taylor, who gave
the "Sioux Chief's Daughter," was award-
ed second place. There is an impression
abroad that undergraduates in elocution
overset their tragical and pathetic selec-
tions; a visit to Massey Hall would forever
dissipate that idea, so far as the students
of Alexandria College are concerned.
Prof. Shepherd has again proved himself
one of the finest teachers of elocution in
the country as he is to be congratulated.

Several musical selections were given by
well-known musicians in excellent style.
A humorous recitation was also given by
Miss Laidlaw in a very happy manner.
Misses Watson and Vermilyea, who gave
the concluding piano duet, are two coming
musicians, of whom Belleville will have
reason to be proud.

The programme was as follows: The
five recitations in Part I, being the
selections upon which judgment was
passed. The remainder of the programme
was merely subsidiary to these.

PART I—THE CONTEST.
Piano Duet—Military Polonaise..... Chopin
Miss Sharp and Wither.
1. Recitation—Hawar..... Brooks
Miss A. S. Hardie.
2. Recitation—Hans A. Hardie..... Willis
Miss M. Kenyon.
Mandolin Solo—Avalanche from Mignon.....
King Henry VIII.
3. Recitation—Queen Katharine Upon Trial
before the Council..... King Henry VIII.
Miss C. V. Haynes.
4. Recitation—The Sioux Chief's Daughter.....
Miss A. Taylor.
5. Recitation—The Blind Girl of Castel-
lone..... Louisa F. Chisholm.
Miss A. Chisholm.

PART II.
Song—The Bend of the River..... Blumenthal
Miss J. M. Morris.
Recitation—Selected..... Miss J. M. Morris.
Recitation—The Wife Hunting Deacon.....
Miss Haynes.
Recitation—Woman's Rights.....
Miss Laidlaw.
Piano Duet—Chorus from "The Merry Wives
of Windsor"..... Misses Watson and Vermilyea.

Prof. Dray in his opening remarks con-
gratulated the elocution department upon
the manner in which the work had been
done. He cordially invited the citizens of
Belleville to attend all the closing exercises
of the College, which in the future would
be open to all. He then introduced the
chairman, W. B. Northrup, Esq. The latter
made a few humorous remarks before tak-
ing up the programme. He congratulated
himself upon the fact that his duties would
be at the same time honorable and easy.
If he had been called upon to act as a judge,
he might be more competent to perform his
duties, but he was not. He then introduced

There should be a law
to prevent the publication of "fake"
advertisements which claim to have been
made by the students of the college, but
which are nothing more than the work of
some one else.

OBITUARY.

MRS. ANNE SWENEY.

This lady, who was a former resident of
this city, died at the residence of her son,
Mrs. J. P. Hanley, of Nanaimo, on Thurs-
day. Her remains were brought here this
morning and interred in the R.C. cemetery.
Her husband died some years ago and her
children all preceded her to the other world.
She was an aunt of Mrs. P.
O'Brien, of Toronto. Mrs. Sweney's
friends here were deeply pained to hear of
her death. She was 71 years of age.

The Fisheries.

The fisheries conference between repre-
sentatives of Canada and the provinces of
Ontario and Quebec has been concluded.
The result of the conference may be sum-
marized: the sole and exclusive power of
making regulations, with the times, seasons
and manner of fishing, belong to the Do-
minion, and any regulations on the subject
affecting the time for fishing or the manner
made by the provinces are void. The
right heretofore exercised by the provin-
ces of leasing licenses to fishermen for
pound net licenses on salmon stands or
for other purposes, is ultra vires of the
provinces, and any regulations on the subject
made by the provinces, and here-
tofore in force, will be exercised by the
Government of the respective Provinces of
Canada.

SPANIARDS BEAT REBELS.

Thirty-Seven Rebels and Ten Span-
iards Killed.

Havana, Cuba, June 24.—At five o'clock
yesterday afternoon two American ships
fired a hundred missiles at the defenses of
Trinidad, on the south coast of Cuba, fifty
miles east of Cienfuegos. The garrison re-
plied to them. The Spanish troops went
out from the city later and defeated rebel
parties in several places, killing thirty-
seven and wounding many. Several prison-
ers were taken, and goods and important
documents were seized. The Spanish
troops had ten killed and some wounded.

Regulate the Speed.

In view of unchecked scorching on the
streets by many bicycle riders, the following
remarks of the Ottawa Free Press ought
to be productive of action in Belleville:
"Bicycle accidents are becoming rather
frequent. There will, as things seem to be
going, be a fatal one before long, and then
perhaps people will awake to a sense of
their own carelessness. The only wonder
is, in view of the utter recklessness ex-
hibited and the deliberate manner in which
needless, but very great risks are taken,
that there are not more accidents. And
as it is not only the wheelers' lives and
limbs which are endangered, it would be
well for some system of police regulation
to be put in force."

The Battalion Parade.

About 225 mustered for the parade of
the XV. Battalion last night, and headed
by the two bands marched first to the
market square, where the manual exercises
were gone through, and thence to the
Quebec. The large turn out and the
excellent manner in which the drill was
gone through must have been very grati-
fying to the officers.

On the review of the drill and Lieut.
Col. Ponton announced the programme for
the annual battle on July 1st. A fine time
is expected by the members of the bat-
talion.

DON'T LET FEATHER BEDS

SIR Wm. Van Housen Says Construction

Made Most of the Year

Montreal, June 25.—Sir William Van

Housen arrived here yesterday, and he was

not over on fact line business. He came

to think the latest propositions had failed

and, although Sir William felt very

strongly on the subject, he did not think

it desirable to discuss the matter just

now.

When Sir William was asked if he had

anything to say in regard to the Crow's

nest case, he said: "I have not yet had

an opportunity to speak to the Hon.

Mr. Shafter, regarding the case, but I

will find that there is always a security

of fact in the construction work. We

had the same trouble when we were

building the main line in the west and

it means to build a railway through

a new country. We could not build

boardings at every five miles, and

cannot supply foodstuffs for all the

men. I was sure the officials did all they

could for the men, and you will find this

to be the case when all the facts are

known."

SHRIMP PIE

Just make a dozen pounds of flour and half a cupful of butter and mix together until light and airy. Then gradually add one cup of cold water, stirring constantly until smooth, but do not let boil. Let this stand about 10 minutes, when add two tins shrimps and the whole mixture stir on a round pan, covering top with round tops or small triangles of pie crust, baking until brown, or 15 minutes. This will serve six people.

The two men of the vessel raised the flag. The *Cusatus*, under General Demetrius Cusato, who entered Dalquiri after the Spaniards had deserted the town, were a little more clothing than ragged. Some had no trousers and only latished shirts, while others wore trousers and shirts. They were mostly negroes, some being laborers of only 15 years of age. They were armed with muskets, ranging from the flintlocks to Mausers and Remingtons. They were accompanied by a doctor; the officers rode donkeys and scrub horses. The sun was blazing with a heat that the soldiers complained by the intense heat, were taken on board the hospital ships.

After the forward movement of the United States army has embarked, General Lawton sent back this afternoon an urgent request for more rations. The reports of the soldiers, and of some of the trappings are still on board ship, and will be taken on tomorrow. It is thought that the Spaniards will have a pack train loaded and on its way by daylight tomorrow morning. An attempt is being made to get the pack train and supplies to Juarezga this afternoon, and to be loaded.

On Sunday, June 24, at Juanita, Friday afternoon, June 25, via Playa del Cielo, Guanajuato Bay, Juanita, Wanda, and the Cavalry, four troops of the 1st Cavalry, four troops of the 10th Cavalry, four troops of the 10th Cavalry, and eight troops of the 10th Cavalry, a total of about 1,000 men in all—dismounted and attacked 2,000 Spanish soldiers in the thickets within five miles of the American base.

The Americans beat the enemy back into the city, but they left the following prisoners:

Rough Riders—Capt. Allyn K. Capron of Troop L, Sergeant Hamilton Fish, Jr., of Troop L, and Troop L, and Troop L, Troop L, Private Douglas of Troop F, Private W. T. Ervin of Troop F.

Yank, York, Kolbe, Berlin and Lemnark.

Tenth Cavalry—Corporal White.

Spanish losses were heavy, being wounded, including six officers. Several of the wounded will die.

Spanish bandits were found in the bush after the fight, but their loss

A MEN SHOT KILLS ONE AND WOUNDS SIX OF HIS CREW

Of Santiago, Cuba, June 22, via New York, June 23.—The battle between the ship Texas today ran close to towards Santiago and aligned and apparently destroyed the Spanish battleship, while Schley's fleet had previously bombarded without result, giving at the same time the opportunity for the Spanish to fight in the war. She was struck by a shell and B. Blakely, an apprentice from New York, was killed. The blow also wounded R. Russell, apprentice, Philadelphia, Pa.; W. J. Slonoman, seaman, Philadelphia, Pa.; J. E. Lividman, seaman, Norfolk, Va.; G. F. Mullin, apprentice, New York, and J. E. Lividman, seaman. Russell very seriously wounded. The others will recover.

SANTIAGO REINFORCEMENTS.

North portion struck the Spaniards about 10 o'clock. The 1st Cavalry, led by General Canby, was the first to enter the town. The Spaniards opened fire from the brick bush, and had every advantage of position. The 1st Cavalry, however, drove them back from the start, and stopped the bloodshed around with a charge over the mountains. The cavalrymen were afterward relieved by the 2nd Cavalry, the 2nd Massachusetts and the 71st New York.

The Americans now hold the position at the threshold of Santiago de Cuba, and with more troops going to the front are preparing for a final assault upon the city.

Spain to Be Attacked.
Washington, D.C., June 25.—The United States is to be carried into the war against Spain, according to H. S. Paine is foolishly

shot through the right leg. Lieut. J. B. Thomas, troop I, shot through the right leg. All the foregoing officers are wounded. Other officers wounded are: Capt. John Smith, whose condition is serious; Maj. Bell, Lieut. Bryan. These officers are of the First Cavalry.

Another correspondent of the New York Journal and Advertiser, was seriously wounded in the small of the back. It is probable that some men in the list of wounded will die.

Manila in the Mediterranean.

Washington, June 25.—The State Department has just received advices confirming the report that the Spanish squadron is in the Mediterranean, making eastward.

jr., one of those "front" was one of the "front" family who went to the fight with Roosevelt's Rough Riders. His family is one of the "front" family. His father, Nicholas Fish, is the son of the late Hamilton Fish, who was Secretary of State in Grant's Cabinet. He is a banker and lives at 35 Irving place, New York. Hamilton Fish, jr., was over six feet tall, of beechen build, and rowed as No. 7 of the crew of the "Yankee" at the Olympic regatta of 1894, over the Poughkeepsie course.

On board the Associated Press dispatch boat Danities, off Sagua, Province of Santiago, Cuba, June 24.—The advance of the American army has reached the edge of the city of Santiago, the capital of Santiago de Cuba lies. Here, seven miles from Morro Castle, as the crow flies, the main body of troops are arrayed, and the Americans are in full view of the city of Santiago de Cuba. They may attempt a surprise, but a decisive engagement is not expected for several days.

Santiago Occupied.

General Lawton's brigade, which routed at Demajuaray, four miles west of Santiago, is now at the edge of the city. Before noon his brigade, consisting of the

of the 8th Cavalry, half of the 4th Cavalry and several companies of the 25th colored cavalry, occupied Juarague, five miles beyond, and the American force was hoisted there. The Spaniards retired before the advance, which was covered by the Cuban skirmishers, burning the blackhouses as they went.

Spanish column 50 strong at Firmas, from which the Spaniards fled. As Colonel Wagner fell back, General Lawton could bring up the 22nd, the 24th and the 25th. The Spaniards had to camp westward.

Gen. Linarez's Retreat.

Duarez was abandoned by General Linarez and 1,300 Spaniards, troops with such haste that they had no time to burn the town, though an ineffectual effort was made to destroy the railroad. The Spaniards left the railroad and the rolling stock. General Linarez retreated to Savilla, six miles from the town, and camped, and nine miles from Santiago de Cuba.

COUNT TOLSTOI.

His 70th Birthday Is to Be an Event of Mark and Importance.

Count Leo Tolstol, the great Russian philanthropist, philosopher, poet and reformer, celebrates his 70th birthday Aug. 28, Russian date. Over and above the many literary dedications and memorials which will be addressed to him in commemoration by the most eminent men of letters and academies from all parts of the world, a large sum is being raised by public subscription which will be placed at his disposal for the founding of some great philanthropic institution.

Mr. La Cella was about 21 years of age. For two years he had been in the hospital and had undergone two operations, but not much relief was obtained. He seemed to be in his usual spirits yesterday, and there was nothing in his manner to indicate an intention of suicide. He wanted to see his room at his brother's house, 67 St. Andrew's street, and to see his mother and sister.

Kidnap With a Stranger.
A sensational elopement took place at the village of St. Joseph de Orleans, Russell County. A Mrs. LeLonde, a married woman aged 38, left for parts unknown, it is said, with a young man who came from Quebec city a year ago. Mrs. LeLonde deserted a husband and three young children. She and her new partner are said to have been seen in Ottawa Saturday. Their whereabouts are now unknown. Mrs. LeLonde's husband was last seen on Monday evening.

A committee of the Ladies' Association, consisting of Messrs. Fielding, Fisher, Paterson and Sir Louis Davies, held a meeting last evening in Mr. Fisher's office to consider the Bill To amend Company's application for an increase of rates. Although the whole question was discussed at length, nothing definite was arrived at. Over a year ago the company applied to the Railway Committee of the Privy Council to be allowed to increase their rates, and the matter has never been disposed of.

Short Line Nearly Complete.

The track-laying on the Ottawa and Montreal route by the new C.P.R.R. short line, was completed this week. All that now remains is to make the connection with the Canada Atlantic Railway tracks and complete the ballasting. Some 260

to be completed next month. The bridge across the Rideau is now under construction and will be completed by the end of the year. All the stations along the line are ready for occupation. Regular trains will be running soon.

It is understood that Canada has been offered 12,000 tons of food at the Paris World's Fair for 1900, while in Chicago in 1893 Canada spent over 100,000 tons not too much space. Mr. Fisher, when in Paris, will endeavor to secure more space for Canada. He will be assisted in this endeavor by Lord Strathcona and the Canadian Agent in Paris.

PONTON VS. DOMINION BANK

The Action is to be Tried at
Cobourg, Whitby or
Peterborough.

Objections to Belleville—The Bank
Represents its Fears and Judge
Decides to Make a Change—Effect
of an Affidavit.

The action brought by W. H. H. Ponton
against the Dominion Bank for \$50,000
damages for malicious prosecution, wrongful
dismissal, and false imprisonment, in con-
nection with the charge of the theft
of \$32,000 from the bank at
Napawan, will be tried at Cobourg, or, if
Mr. Ponton prefers it, at Whitby or Peter-
borough. Mr. Ponton must make his
choice among these three places within ten
days.

The question was argued yesterday at
Osgoode hall, when Mr. Aylesworth, Q. C.,
acting for the defendants, appeared from
an order of the Master in Chambers
refusing to change the place of trial from
Napawan to Toronto, but changing it to
Belleville.

All of the events which gave rise to the
action took place at Napawan. The de-
fendants, the Dominion Bank, urged that
there could not be a fair trial at Napawan,
because in the County of Lennox and
Addington, from which a jury would have
to be selected, there was a strong feeling
in favor of Ponton. They further con-
tended that a similar feeling existed in the
County of Hastings, where Ponton and his
family resided. The bank offered to pay
the additional expense for a trial at Toron-
to or at such other place as the judge might
name.

The judge intimated that the place of
trial should not be changed to Toronto,
but that the difficulty of securing a fair
trial at Belleville had been sufficiently
shown by an affidavit put in since the
Master's order, and proposed to name
some neutral place where there could be a
fair trial at a reasonable expense and with
reasonable speed. The result is as stated
above. In other respects the order of the
Master is to stand with the costs of the
appeal in the cause.

The Sparrow Pest.

A Good Way to Get Rid of the
Nuisance.

For some time the Provincial Game De-
partment has been flooded with enquiries
about English Sparrows and the best way
of getting rid of them. The Game Warden
has investigated and has reported that the
most successful way of getting rid of the
pest is to kill—birds and eat them.

The birds are just as good as game birds
for food. According to Mr. Tinsley, they are
eaten with great gusto in Great Britain.
The Game Warden believes that a double
purpose will be served in this way. The
birds could be eaten, and at the same time
be exterminated. The birds,
on being killed, should be placed in hot
water, skinned and then dressed like chick-
en.

MINOR MATTERS TALKED ABOUT.

What Shall be Done With the Bay
Bridge?—A Hundred for the Batta-
lion Band.—Our City Fathers Get
Down to Business.

The following members were present at
last night's meeting of the City Council:
Mayor Johnson, Ald. Falkner, Doyle,
Chisholm, Hungerford, Hunsan, Lewis,
Stirling, Harris, Naylor, Clarke, Mc-
Cann, Wallace, Pantar, Grilla, Petty,
Ashley, Deuring, Lott and Bogart.

A communication was read from Ald.
Chauncey Ashley informing the Council that
he had purchased some lots on Station, and
complained making some rough, which
would block the water from the drain. He
asked that the Street Surveyor be in-
structed to arrange for the carrying off of
the water in the unsatisfactory—referred to
the Committee on Public Works.

A communication from Assayist Wells
asking the Council to provide him with a
cabinets in which to keep an exhibit of
minerals was referred to the Executive.

A communication from Porter & Farn-
ham, solicitors for Mr. John C. Lake, ask-
ing for damages sustained to Mr. Lake's
horse on Mill st. and asking that the
thoroughfare be repaired, was referred to
the Executive.

A communication from Mr. W. N.
Ponton, President of the West Hastings
Fair Association, asking the Council to
arrange with the Freshwater Lake Co. to
give the Society the free use of the grounds
on Sept. 14 and 15, was referred to the
Executive.

The reports of the Executive and Public
Works Committees were read.

Council went into Committee of the
Whole to discuss the Reports, Ald. Wal-
lace in the chair.

The recommendation of the Executive
that the XV. Battalion be granted the sum
of \$100, so that the band might be re-
tained in the city for July 1st, was agreed
to. A band stand will also be erected.

Mr. R. J. Graham was granted an ex-
tension of his exemption.

A communication was read from Mr. W.
N. Ponton, a shareholder in the Quinte
Bridge, urging the City to take action
to protect its interests.

The Mayor gave a very complete
and lucid explanation of the exact
position of the matter. The City
had taken \$50,000 stock in the bridge, ex-
pecting at the time that the income would
be large enough to more than pay the \$1-
200 annual interest on the debentures
issued. However, the construction of the
bridge was faulty and the large expenditure
necessitated for repairs had, even up to
the income derived. The bridge was bond-
ed to the late Alex. Sutherland for \$35,000,
together with the arrears the amount
due his estate on Dec. 31st, 1891 was \$38-
60. Other claims would bring the total li-
ability of the bridge up to about \$50,000.
Mr. Sutherland's executors would move
Tuesday (to-day) at Toronto for an
immediate foreclosure of the mortgage.
His Worship thought the best thing to be
done was for the City, as the largest share-
holder, to call a meeting of the share-
holders to discuss matters. The question to be
considered was whether it would be better
for the City to hold the bridge, or whether
it would be better to let it fall into the
hands of a private company who would be
able to maintain it, in self-defence. In
reply to a question of Ald. Petty the Mayor
said he did not know whether a private
company would be bound to maintain the
present rules or not.—Referred to the
Executive.

Several accounts were passed and the
Committee rose and reported.

Ald. Wallace moved the appointment of
a special committee to have charge of Vic-
toria Park. Ald. Bogart moved in amend-
ment that the Mayor and City Property
Committee have charge of the park. The
amendment carried. In the course of the
discussion Ald. Hungerford took the op-
portunity of reminding the Council that he
was the originator of the park.

Ald. Doyle moved that the rules be
suspended to allow him to introduce a motion
that tenders be called for the rearing of the
elevator.—Lost.

Ald. Chisholm moved that the rules be
suspended to allow him to introduce a
motion that the insurance on the elevator
be reduced from \$14,000 to \$8,000.—Lost.

Council then adjourned at an early hour.

ON ALBERT'S LAWN.

An Enjoyable Evening Spent in and
Around the College.

Hypocritical indeed would be the
viator who did not admire the scene on
the lawn of Albert College last evening.
The occasion was the annual reunion and
promenade concert, and in addition to the
Albert students there were also present
the members of the different Branch
Leagues of the city, the students of the
Business Colleges and the Belleville young
people generally. The evening was un-
doubtedly one of the College buildings were
a blaze of light, and the lawn was tastefully
decorated with lanterns of all shades and
sizes.

The College buildings, including the art
room, were open, and were inspected and
admired by a large number of the visitors.
Refreshments were served in the dining
hall by Wallace & Co.

The XV. Battalion Band furnished ex-
cellent music throughout the evening. At
the conclusion of each number of the pro-
gramme a few minutes was given for
promenading, when old friendships were
renewed, and new ones, some of them
lasting so long, were formed. The follow-
ing is the programme:
